## All but one record for voting broken

Every NCAA Convention voting record except one was broken at the 84th annual Convention January 8-10 in Dallas.

Spurred by the largest Convention turnout ever and by the most roll-call votes in history, the delegates shattered the marks for the highest counted votes in the general business session and in Divisions I, I-A, I-AA and III. Only in Division II did the previous high count stand.

In fact, Division I registered 25 separate votes that were higher than the previous record. And the general business session recorded the largest three votes in Convention history and eight of the top 10 all-time.

The voting-record summary in Dallas:

• **General session:** A record 746 votes on No. 30-I, an amendment-to-amendment to include basketball and football in the time-reduction resolution. Old record: 704, 1987 annual Convention, to move the financial aid legislation from the constitution to the bylaws.

The general session also recorded votes of 743 (No. 30-A, the time-reduction resolution), second highest all-time; 741 (No. 30-II, once-in-four-year basketball exemption), third highest; 693 (No. 32, summer financial aid), sixth highest; 691 (No. 52, individual drug sanctions), seventh highest; 690 (No. 53, year-round drug testing), eighth highest; 681 (No. 54, team sanctions for use of banned drugs), ninth highest, and 676 (No. 32-I,

amendment to No. 32), tenth highest.

• **Division I:** A record 327, three times — No. 38, granting a fourth year of eligibility to non-qualifiers and partial qualifiers; No. 56, a resolution regarding freshman ineligibility in Division I men's basketball, and No. 30-I (as part of the total vote). The highest possible number of Division I votes was 330.

Division I also recorded 22 other vote totals ranging from 320 through 326. Old record: 319, 1989, "Proposal 42."

• **Division I-A:** A record 115 on the final vote on No. 30-B (spring football practice), which represents every possible I-A vote. The subdivision also had 114 votes on a motion to refer No. 30-B. Old record: 113 twice — 1987 special Convention (to lower football grants from 95 to 90) and 1989 (football evaluation periods).

• **Division I-AA:** A record 96 on the final vote on No. 30-B. That is just one short of the highest possible vote in that subdivision. Division I-AA voters also posted a 94 total on the motion to refer No. 30-B. Old record: 93, 1987 special Convention (to lower football grants from 70 to 65).

• **Division III:** A record 238, twice — No. 30-I (as part of the total vote on that amendment-to-amendment) and No. 30-G (basketball season reductions). That division also had two votes of 236 (No. 103, out-of-season

*See All, page 9*

## Select Committee laid base for sports reform movement

When the Knight Commission, a privately funded, two-year, \$2 million project, conducts its first meeting January 30-31 in Washington, D.C., it will mark the second time in eight years that a national blue-ribbon panel has investigated problems in intercollegiate athletics.

For a 16-month period in 1982 and 1983, a Select Committee on Athletic Problems and Concerns in Higher Education formulated recommendations to deal with "the serious problems affecting college athletics." That 16-member panel was funded by the NCAA but operated as an independent commission with its own staff. Its final report was submitted in October 1983.

A review of that report shows that the Select Committee was successful, sooner or later, in 22 of its 27 specific recommendations, or better than 80 percent.

There is one member of the Knight Commission who also served on the Select Committee: Charles E. Young, then and now chancellor of the University of California, Los Angeles.

Other members of the 1982-1983 committee were Willie D. Davis, Los Angeles businessman and former professional football player; Robert S. Devaney, director of athletics, University of Nebraska, Lincoln; the late Jerome H. Holland, former U.S. Ambassador to Sweden and former college president; Lou Holtz, then football coach at the University of Arkansas, Fayetteville, and now at the University of Notre Dame; Edward H. Jennings, president, Ohio State University; Rev. Edmund P. Joyce, then executive vice-president, University of Notre

Dame, now retired; Roy Kramer, then athletics director at Vanderbilt University, now recently named commissioner of the Southeastern Conference.

Also, Wesley W. Posvar, chancellor, University of Pittsburgh; Otis A. Singletary, then president of the University of Kentucky, now retired; Dean E. Smith, basketball coach, University of North Carolina, Chapel Hill; Howard R. Swearer, then president of Brown University; Barbara S. Uehling, then chancellor at the University of Missouri, Columbia, and now chancellor of the University of California, Santa Bar-

bara; Jack R. Wentworth, then faculty athletics representative at Indiana University, Bloomington, and Charles Alan Wright, professor of law, University of Texas, Austin, and former chair of the NCAA Committee on Infractions.

The Select Committee was directed by John P. Schaefer, former president of the University of Arizona and president, then and now, of Research Corporation Technologies, Tucson, Arizona.

### Select Committee

The Select Committee grouped its 27 recommendations in four categories. *See Select Committee, page 3*

## NCAA continues review of Tarkanian litigation

Legal counsel for the NCAA and Jerry Tarkanian, men's basketball coach at the University of Nevada, Las Vegas, are reviewing documents that, if approved, would constitute agreement by both sides implementing the state Supreme Court ruling handed down last September as to Tarkanian's injunction against the NCAA.

"The parties tried to develop a stipulation that would do two things," said John J. Kitchin of Swanson, Midgley, Gangwere, Clarke and Kitchin, the Association's Kansas City, Missouri, legal counsel.

"First, the stipulation would carry out the (Nevada) state Supreme Court ruling relative to dissolving the district court injunction (against the NCAA) and the reversal of

judgment regarding (Tarkanian's) attorneys' fees.

"It also would confirm that the NCAA is entitled to payment (by Tarkanian) of court costs dating to the start of this case in December 1977," Kitchin said. Estimated at \$21,000, those costs do not include any legal fees — only charges for transcripts, document preparation and similar services.

Kitchin added that any agreement would not prohibit future action the Association might take with respect to the show-cause order of the NCAA relating to Tarkanian. "This is just a stipulation to comply with the Nevada Supreme Court opinion," he said.

That ruling, in response to a motion by the NCAA and a coun-

*See NCAA, page 9*

## Goal posts may go back to 1959 width of 18-6

The NCAA Football Rules Committee members, from left, are William B. Manlove Jr., Widener University; Philip James Butterfield, Ithaca College; Douglas W. Weaver, Michigan State University; Secretary-Rules Editor David M. Nelson, University of Delaware; Fisher DeBerry, U.S. Air Force Academy; John M. Williams,

Mississippi College; Marino H. Casem, Southern University, Baton Rouge; Ron Harms, Texas A&I University; Dave Maurer, Wittenberg University; Douglas A. Dickey, University of Tennessee, Knoxville; Committee Chair Milo R. Lude, University of Washington, and Richard B. Yoder, West Chester University of Pennsylvania.

The NCAA Football Rules Committee has voted to reduce the width of goal posts from 23 feet 4 inches to 18 feet 6 inches and to allow the defense to advance a fumble that occurs in or beyond the neutral zone.

The committee, which met January 15-17 in Kansas City, Missouri, voted to reduce the distance between the uprights due to the increased accuracy and proficiency of kickers on field-goal and extra-point attempts and to provide more balance between the offense and defense.

At last year's meeting, the committee voted to prohibit the use of two-inch kicking tees on field-goal and point-after-touchdown attempts; however, field-goal accuracy in Division I-A increased from 67.6 percent in 1988 to a record 69.3 percent last season. Combined team scoring among major colleges last season also increased to a record 48.2 points per game from the previous record of 47.5 points a game in 1988.

Although the committee which consists of six Division I, three Division II and three Division III members. *See Goal posts, page 2*

Victor M. Royal photo

# Goal posts

Continued from page 1

members voted unanimously to narrow the width of goal posts, the measure must be approved by the NCAA Executive Committee because the rule has possible economic ramifications for NCAA member institutions.

The Executive Committee meets May 7-8 in Colorado Springs, Colorado.

In 1959, the rules committee widened goal posts from 18 feet 6 inches to 23 feet 4 inches. Successful field goals nearly doubled that season from 103 to 199.

The committee's vote to allow the defense to advance fumbles that occur in or beyond the neutral zone (the space between the two lines of scrimmage equal to the width of the ball and stretching from sideline to sideline) reflected its desire to restore balance between the offense and defense.

## New goal posts won't be necessary

The NCAA Football Rules Committee's proposal to narrow the width of goal posts from 23 feet, four inches to 18 feet, 6 inches would not require member institutions to purchase new goal posts.

Single-post or "goose-neck" ground-support goal posts can be altered to the proposed width by cutting off the crossbar from the ground-support upright standard, cutting off four feet, eight inches from one end of the crossbar, reattaching the upright to the crossbar and the crossbar and uprights back to the ground-support upright standard at the midline of the field.

No new materials would be required; the only cost would be cutting the crossbar to the recommended width and reassembling the goal post.

"The committee is ever mindful about the balance between offense and defense," said committee chair and University of Washington athletics director Milo R. Lude. "Committee members acted with no self-interests and were mindful of the balance that we need to have between the offense and defense."

"We voted to narrow the goal posts because of the data and research that indicate kickers have become so proficient. This is a significant change, but we believe it's in the best interest of the game."

"We had to consider the number of field goals in relation to the number of touchdowns," secretary-rules editor David M. Nelson said. "Reducing the width of goal posts was the only option we had left since we eliminated the use of kicking tees last year."

"This wasn't some spur-of-the-

minute decision," Nelson said. "The committee has studied the increase of the number of field goals and been concerned about the influence the field goal has had on the game for quite some time—particularly during the last four years. This was not the first time the committee has addressed the issue. We need a balance between offense and defense. When the committee voted to widen goal posts in 1959, it overcompensated. We had no idea we'd have the situation we have now."

In other rules proposals, the committee again voted to prohibit "split" officiating crews and to mandate the use of 25-second clocks. Both measures, which would take effect in the 1992 season, were approved at last year's meeting; however, the Executive Committee rescinded them. The rules proposals again will be reviewed at the Executive Committee's May meeting.

In safety-related measures, the committee adopted a provision to prohibit players of the kicking team during onside kicks from contacting or blocking players of the receiving team until the ball travels the required 10 yards. In addition, when officials are unsure that players have run into or roughed punters or kickers or holders on field-goal or point-after-touchdown attempts, a 15-yard penalty will be called.

The committee also voted to make it illegal for an offensive player to use a hand to make continuous contact with the head of a defensive opponent.

Other notable rules changes include:

- Penalizing teams five yards for not being in the team area or being beyond nine yards away (the recommended distance for field yard-line numbers from the inbounds lines) during the pregame coin toss. In addition, only four captains from each team will be permitted to participate in the coin toss. The rule is intended to reduce unsportsmanlike acts or the taunting of opponents during the pregame coin toss.

- The prohibition of any markings on towels attached to the fronts of players' pants. In addition, towels must not extend more than 12 inches in length from the

fronts of players' pants or more than four inches in width and are the only legal attachments allowed on players' uniforms.

- Shutting off the 25-second clock during the last 25 seconds of each quarter to avoid confusion among players about which clock is keeping the official playing time.

- Allowing forward passes to be immediately released to the ground to conserve time. Previously, quarterbacks would be called for intentional grounding for "spiking" or throwing the ball directly forward to the ground.

- Prohibiting any commercial ad-

vertising on footballs.

- Permitting arrows next to field numbers that indicate the direction of opponents' goal lines.

- Establishing the length of inbounds lines (or hash marks) at 24 inches.

- Approving a 15-yard penalty and disqualification for persons subject to the rules who intentionally contact an official during a live or dead ball.

- Deleting the exception that permitted defensive players to pull or grasp offensive players to allow a teammate to block a kick or reach a runner.

## Devlin takes post with Knight group

Maureen E. Devlin, who has been a member of the national office staff since 1988, has been named to a staff position with the Knight Commission. She will leave the NCAA January 19.

Devlin said she joins a staff whose major responsibility is "to make sure the Knight Commission does not operate in a vacuum. We believe it is important to work through the NCAA to change certain aspects of intercollegiate athletics."

"For that reason," she said, "we will bring before the commission members of all the various constituencies in college sports. We want to insure that members of the commission hear as many different perspectives as possible, and we want to avoid surprising anyone with any recommendations that result from the commission's work."

An honors graduate from Harvard University, Devlin also holds a

Maureen E. Devlin

master's degree in sports administration from Pennsylvania State University.

She joined the legislative services department June 30, 1988, and served as a legislative assistant until last December. She was named a compliance representative in the Association's compliance services department December 4.

## Committee Notices

Member institutions are invited to submit nominations to fill interim vacancies on NCAA committees. Nominations to fill the following vacancies must be received by Fannie B. Vaughan, executive assistant, in the NCAA office no later than February 8.

**Committee on Financial Aid and Amateurism:** Replacement for Jeffrey H. Orleans, Ivy Group, resigned. Appointee must be from Division I.

**Eligibility Committee:** Replacement for Douglas W. Weaver, Michigan State University, resigned effective immediately inasmuch as he will retire July 1, 1990. Appointee must be from Division I.

**Division I Men's Ice Hockey Committee:** Replacement for Douglas W. Weaver, Michigan State University, resigned effective immediately inasmuch as he will retire July 1, 1990. Appointee must be from the Division I West men's ice hockey region.

## Members' suggestions sought

CEOs and athletics administrators at NCAA member institutions have been formally requested to provide recommendations on the distribution of revenues from the men's basketball championship television contract.

The request was made by Judith M. Sweet, NCAA secretary-treasurer, who is chair of the Advisory Committee to Review Recommendations Regarding Distribution of Revenues.

The request was mailed January 23 to member institution, CEOs, faculty athletics representatives, directors of athletics and senior women administrators and to CEOs of conferences and NCAA affiliated organizations.

Sweet's memorandum said recommendations in writing should be sent to the advisory committee in care of the national office and postmarked no later than February 9.

Sweet said, "Each member institution, organization and committee is requested to discuss the matter with as many individuals as possible, including associate and assistant directors of athletics, business managers, and coaches."

She said that after a review of members' proposals, the advisory committee would conduct hearings to review suggestions from the membership before its recommendations are made to the Budget Subcommittee for its June meeting.

"This is a promising and exciting time in NCAA history," Sweet said in her memorandum. "Please take this opportunity to give us your best thoughts and help us with this important assignment."

The appointment of the advisory committee by the NCAA Administrative Committee was announced

in the January 3 issue of The NCAA News.

In December 1989, the NCAA signed a \$1 billion, seven-year contract with CBS Sports for rights to televise the Division I Men's Basketball Championship and a number of additional Association championships.

## Legislative Assistance

1990 Column No. 4

### 1990 Convention Proposal Nos. 26 and 29—partial qualifier and nonqualifier

Division I member institutions should note that with the adoption of Proposal No. 26 at the 1990 Convention, effective August 1, 1990, an entering freshman with no previous college attendance who enrolls in a Division I institution and who is a partial qualifier as defined in NCAA Bylaw 14.02.9.2 may receive institutional financial aid based on financial need only, consistent with institutional and conference regulations, but may not practice or compete during the first academic year in residence. In addition, in Division I football or basketball, a student-athlete who is a partial qualifier and who was recruited by the awarding institution and receives institutional financial aid based on financial need only shall be a counter and shall be included in the institution's maximum awards limitations set forth in Bylaw 15.5.2 or 15.5.4 when the student-athlete participates in an institutional practice session or represents the institution against outside competition.

During its post-Convention meeting (January 10, 1990), the NCAA Interpretations Committee reviewed Convention Proposal No. 26 and confirmed that this legislation would apply only to those student-athletes first entering a member institution in a regular term of the academic year on or subsequent to August 1, 1990. The Interpretations Committee also confirmed that the source of any aid received by a partial qualifier during the first academic year may not be athletically related.

Division II member institutions should note that with the adoption of Convention Proposal No. 29, effective August 1, 1990, an entering freshman (recruited or nonrecruited) with no previous college attendance who is not a qualifier (as defined in Bylaw 14.02.9.1) at the time of enrollment in a Division II institution shall be eligible for nonathletics institutional aid, provided there is on file in the office of the director of athletics certification by the faculty athletics representative and the chair of the financial aid committee that the financial aid was granted without regard to athletics ability. A partial qualifier attending a Division II

institution remains eligible for institutional aid, including athletically related aid.

### 1990 Convention Proposal Nos. 64 and 65—one-time transfer exemption

NCAA Divisions I and II institutions should note that Proposal Nos. 64 and 65 were adopted at the 1990 Convention. With the adoption of Convention Proposal No. 64, effective August 1, 1990, it is no longer necessary for Divisions I and II member institutions to receive verification of the student-athlete's financial status from the previous institution in determining whether the student-athlete has satisfied the provisions of the one-time transfer exception of Bylaw 14.6.5.3.10. In addition, the Interpretations Committee reviewed Convention Proposal No. 64 and determined that although the proposal does not become effective until August 1, 1990, the legislation could be applied as of that date to a student-athlete who has transferred but not yet established a year of residence.

Regarding Convention Proposal No. 65 (Division II only), effective immediately, it is permissible for a student-athlete transferring from any division to receive the one-time transfer exception in any sport, provided the student-athlete satisfies the remaining conditions of Bylaw 14.6.5.3.10. Please note that a student-athlete transferring to a Division II institution during the current spring term would be responsible for satisfying subparagraph 14.6.5.3.10(c) (verification of financial aid) and the official interpretations of that regulation, inasmuch as the effective date of Convention Proposal No. 64 eliminating subparagraph (c) is not until August 1, 1990.

*This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director for legislative services, at the NCAA national office.*

# Injury rate for football reaches a seven-year high

Football injury rates during practices and games were higher in 1989 than the average rates for the past six years, according to the annual report prepared by the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports.

Knee and ankle injuries continue to be the most common types of football injuries, and more than half of football injuries occur during practice.

In other sports, the survey reveals that practice and game injury rates in field hockey were lower this fall than the average rates for the four years data have been collected.

Injury rates in men's soccer and women's volleyball were almost equal to the cumulative averages for each sport.

Results for women's soccer were mixed; 1989 data show a lower practice injury rate but a higher game injury rate when compared to the four-year averages for the sport.

The survey, which is conducted as part of the NCAA Injury Surveillance System, is statistically reliable; but researchers should be cautious when comparing the results with injury data from other studies.

"No common definition of injury, measure of severity or evaluation of exposure exists in the athletics injury

literature," said Randall W. Dick, NCAA assistant director of sports sciences. "Therefore, the information contained in the survey summary must be evaluated under the definitions and methodology outlined for the NCAA Injury Surveillance System."

Dick also cautioned that any analysis of injury trends must take into account that the data cover only six years or fewer, depending on the sport.

## Sampling

Exposure and injury data were submitted weekly by athletics trainers from institutions selected to represent a cross section of NCAA membership. The cross section was based on the three divisions of the NCAA and the four geographical regions of the country. The selected institutions composed a minimum 10 percent sample of the membership sponsoring the sport; therefore, the resulting data should be representative of the total population of NCAA institutions, Dick said.

Dick said it is important to note that this system does not identify every injury that occurs at NCAA institutions in a particular sport. Rather, it collects a sampling that is representative of a cross section of NCAA institutions.

## Exposures

An athlete exposure (A-E) is one athlete participating in one practice or game in which the athlete is exposed to the possibility of athletics injury. For example, five practices, each involving 60 participants, and one game involving 40 participants would result in a total of 340 A-Es for a particular week.

## Injuries

A reportable injury in the Injury Surveillance System is defined as one that:

- Occurred as a result of participation in an organized intercollegiate practice or game.
- Required medical attention by a team athletics trainer or physician.
- Resulted in restriction of the student-athlete's participation for one or more days beyond the day of injury.

**Injury rate**  
An injury rate is the ratio of the number of injuries in a particular category to the number of athlete exposures. This value then is multiplied by 1,000 to produce an injury rate per 1,000 athlete exposures.

For example, 11 reportable injuries during a period of 724 athlete exposures would give an injury rate of 15.2 injuries per 1,000 athlete exposures (11 divided by 724 and then multiplied by 1,000).

The Injury Surveillance System was developed in 1982 to provide current and reliable data on injury trends in intercollegiate athletics. The NCAA annually collects injury data from a representative sample of member institutions, and the resulting data summaries are reviewed by the competitive safeguards committee. The committee's goal is to reduce injury rates through changes in rules, protective equipment or coaching techniques.

Additional information on the report is available from Dick at the NCAA national office.

The following tables highlight selected information from the fall 1989-90 survey. Injury rates and game/practice percentages are compared to the average values from all years in which data have been collected in that particular sport.

## Select Committee

*Continued from page 1*

gories—academic issues, governance, enforcement and recruiting, and financial issues. Of the five recommendations that have not been realized in the past six years, three were in the academics grouping, one in governance and one in financial issues.

Those five:

- Adding a successively greater minimum accumulative grade-point average to the satisfactory-progress legislation (achieved in Division II but not in Division I).
- Declaring freshmen ineligible in Division I football and basketball.
- Adjusting the grant-in-aid limitations in football and basketball, to 26 initials and 104 overall in football and four initials and 16 overall in basketball.
- Creating Division I subdivisions in basketball comparable to Divisions I-A and I-AA in football.
- Urging institutions to "bond together" to generate maximum revenues, especially in football television. That recommendation was scuttled by the U.S. Supreme Court's 1984 decision that the NCAA Football Television Plan violated antitrust laws.

Otherwise, all of the Select Committee's recommendations have been achieved, all or in part, during the past six years. By category, the successful recommendations were as follows:

### Academic Issues

Support the strengthening of academic standards in Division I [then Bylaw 5-1-(j), now Bylaw 14.3] and conduct appropriate research regarding the impact of those standards. That research is continuing.

Support the use of standardized test scores as one of the guides to determine athletics eligibility. The committee called those tests "the

### Sport added

American University will begin varsity competition in women's soccer in 1990, according to Joseph F. O'Donnell, director of athletics.

Pete Mehlert, men's soccer coach, will also be head women's coach.

best single instrument available to measure the student's potential to succeed."

Support a satisfactory-progress requirement "that is both demanding and practical," with each institution to assure that a student-athlete makes sufficient progress to graduate within a five-year period.

Require each institution to publish its satisfactory-progress requirement and to certify that those student-athletes certified as eligible for athletics are making progress toward graduation under that requirement.

Urge institutions to implement internal auditing procedures to develop graduation-rate data on their student-athletes.

Consider requiring institutions to publicize their graduation data.

Make eligibility requirements for transfers from two-year colleges consistent with those applied to freshmen admitted to four-year institutions.

Require a transfer student from a two-year college who was not eligible to compete at a four-year institution upon graduation from high school to have graduated from the two-year college and have 48 credit hours of course work acceptable toward a specific degree program at the four-year institution.

### Governance

Recommend that institutions with major, revenue-producing athletics programs be provided greater autonomy in the NCAA legislative process. This was achieved at the 1985 Convention, for the most part.

Establish a council or board of presidents within the NCAA, but not with the power to veto or replace legislation enacted by an NCAA Convention.

Establish a summer legislative meeting for Division I-A. This now is permitted under NCAA legislation, although only one has been held.

### Enforcement, recruiting

Broaden the NCAA's distribution of rules and regulations to prospective student-athletes, their parents and their high schools.

Revise and recodify the NCAA Manual.

Develop a comprehensive audit and certification program in intercollegiate athletics, including periodic self-analysis of the athletics program and possibly an accreditation program. The audit and self-study requirements are in effect, and a voluntary certification program begins this year in Division I.

Place further limitations on recruiting, including "quiet periods" surrounding dates on which prospects can sign the National Letter of Intent.

Prohibit noninstitutional personnel from involvement in recruiting prospects on the campus, as well as off.

Create a special committee experienced in interpreting NCAA legislation to advise the Administrative Committee and the Council on questions regarding interpretations.

Urge institutions and conferences to organize specific educational programs and seminars. A number of conferences do this, and the NCAA has conducted a number of rules and current-issues seminars.

### Financial issues

Place the Association's financial aid legislation in the bylaws, where each division could act separately on that issue.

Support legislation to exempt up to \$900 of the Pell Grant from NCAA aid limitations. This exemption was approved, later increased to \$1,400 and this month increased to \$1,700.

Encourage institutions to award financial aid to student-athletes who have completed their eligibility in order to assist them toward graduation. Institutions now can award a maximum of five years of aid in a six-year period.

Support procedures to assure that an institution controls the salary and all other athletics-related sources of income received by its coaches; monitor carefully the revenues received from donors and boosters. Coaches' outside income now must be reported to the chief

executive office of the institution; further, all funds used for the athletics program now are subject to outside financial audits.

### Knight Commission

The 21-member Knight Commission is cochaired by the Rev. Theodore M. Hesburgh, president emeritus of Notre Dame, and William Friday, president emeritus of the University of North Carolina System.

In addition to Young, four other members of the Knight group are current or former members of the NCAA Presidents Commission: Thomas K. Hearn, Wake Forest University; Martin A. Massengale (current Commission chair), University of Nebraska, Lincoln; Chase N. Peterson, University of Utah, and James J. Whalen, Ithaca College, chair of the American Council on Education for the past year.

Other CEOs on the commission are Lamar Alexander, University of Tennessee, Knoxville; John A. DiBiaggio, Michigan State University; A. Kenneth Pye, Southern Methodist University; Bryce Jordan, Pennsylvania State University, and Donna E. Shalala, University of Wisconsin, Madison.

NCAA Executive Director Richard D. Schultz is serving on the commission, as are Richard W. Kazmaier, president of Kazmaier & Associates; Rep. Thomas McMillen, D-Maryland, and Jane Cahill Pfeiffer, former chair of NBC.

Rounding out the Knight panel are Douglas Dibbert, University of North Carolina, Chapel Hill, president-elect of the Council of Alumni Association Executives; Donald Keough, president, Coca-Cola Co.; LeRoy T. Walker, chancellor emeritus, North Carolina Central University and a past president of the National Association of Intercollegiate Athletics, and Clifton Wharton, chief executive officer, Teachers Insurance and Annuity Association/College Retirement Equities Fund. Creed Black, president of the Knight Foundation, which is funding the project, serves as an ex officio member.

## Moral crisis in sports is not just CEOs' problem

By John A. DiBiaggio

The media are raking college sports over the coals. The money involved with intercollegiate athletics is tainting the image of even the best academic institutions.

Editorial after editorial calls upon weak-kneed college presidents to take control of athletics programs run amok on their campuses. Magazine exposes report that athletes at some institutions are not even attending classes.

And that's the way it is, right here in... 1905. Unfortunately, the problem continues.

Today, America is undergoing a national crisis of ethics, as many have declared, and intercollegiate sports are an easy target.

In the midst of Watergate, Notre Dame basketball coach Digger Phelps said: "It's like someone hired Hunt and Liddy to get basketball players."

"That's why when the Watergate stuff started, I wasn't too upset to read about it and said, 'Hey, that's just like college recruiting.'"

The relationship between the image of American higher education and the image of intercollegiate athletics has been a problem for us for most of the 20th century, as college and university presidents and chancellors know all too well.

In too many minds, some institutions are known mainly or even solely for their athletics records. Scandals, ineligibilities, "death penalties," pro-

bations and dismissed administrators have all been ingredients in sorry tales of abuses on many campuses over the decades.

The flying wedge killed players on our nation's collegiate playing fields at the turn of the century; today, we hear that steroids are doing the same thing.

The NCAA was formed in 1906 because total oversight was demanded; today, we hear the NCAA investigators can't be everywhere. In the early years of this century, columnists wrote about the sad irony that a few coaches were making more than professors; today, we know that shoe contracts and the television shows make coaches

field or on the court has meant too much to too many for too long.

There are various ways to approach our problem. One body of advisers tells us that history cannot be denied. Scandals and abuses are obviously inherent components of college sports. Abolish intercollegiate athletics this afternoon.

I reject the simplistic advice, although on a bad day, it can appear attractive.

Or perhaps we should just declare the hypocrisy over, ask all campus editors to remove "student" from student-athlete and field farms clubs for the NFL, NBA, PGA and others—openly and unapologetically.

Then, there are those who claim

John A. DiBiaggio

sweatshirts for recruits or giving bus trips home to athletes."

I'm not ready to distinguish mortal from venial sins for the NCAA as yet.

I also am not ready to declare that everyone is doing it, because I know firsthand that many are abiding by the letter and the spirit of the law.

I think it is just as irresponsible to call for the abolition of college athletics as it is to proclaim them sacrosanct. We must go about the business of reform of intercollegiate athletics, not abolition. Reform takes a lot of work. Reform demands accountability. Reform demands that presidents and chancellors get more involved. Reform carries with it professional risks.

There must be one goal in the reform movement: We must end up with what is right, not merely with what will sell.

I often quote management consultant Peter Drucker about the distinction between efficiency and effectiveness: "Efficiency is concerned with doing things right; effectiveness is concerned with doing the right things." It's important that we are efficient; it is more important that we are effective. I honestly think effective reform is under way.

It would be arrogant of me to conclude that contemporary athletics reform movements are the first attempts at reformation. When our nation was in the midst of an early century "age of reform," abuses in college sports received much of the attention. Indeed, the creation of the NCAA followed outcries for reform from the famed Muckrakers to the bully pulpit of President Teddy Roosevelt himself.

In many segments of our society, winning is honored. But even winning achieved by breaking the rules of the game is honored instead of condemned. In this regard, I think that once again there is an "enough is enough" mood working in favor of reform.

Without getting into the specific debates over definitions of amateurism, or whether the Big Ten should join the College Football Association, as president of a major university, I must take responsibility for providing the framework, the environment and the full-fledged support for reform. I must delegate authority—but not responsibility—

See Moral, page 7

## Limiting time spent on sports will be difficult

James O'Hanlon, faculty athletics representative  
University of Nebraska, Lincoln  
Omaha World-Herald

"We'll have to figure some way to get control of the amount of time a player is required to practice and engage in conditioning, and that's going to be very difficult.

"Right now, our student-athletes spend four to eight hours a day, and that's too much. They're never really a part of the student body.

"If they're very disciplined, they may make good grades, but they miss out on so many other things that are part of going to college. They don't know students who aren't athletes."

William Phillips, varsity basketball player  
Delaware State College  
Sports information release

"Back in high school, I was told that a future in pro ball would be a long shot, and I was advised to always stay on top of my studies.

"I soon realized it was the best advice I could have ever received. I'm grateful that basketball has given me the opportunity to receive a quality education."

Dan Bell, head men's basketball coach  
Northwestern State University (Louisiana)  
Sports information release

"We want to make a point that academics really is the No. 1 priority in our program; and if we have to sit out two good players to prove it, we're going to do that. Our guys are here primarily to get an education."

Craig Ogletree, varsity football player  
Auburn University  
The New York Times

"The advantage of the (athletics) dorm is that sometimes you get some freshmen who come here and aren't as responsible as others, and they need guidance to make sure they go to class or study hall.

"But if it was up to me, I would let people have the option. If they wanted to move out and get an apartment, let them be responsible. This is an important stage of your life, and you need to get out and try to get some of the responsibilities in a real-world environment; because here, you're pampered a little."

John J. Crouthamel, director of athletics  
Syracuse University  
The Dallas Morning News

"The sense of the presidents is clear. If we don't give the

O'Hanlon

Bradshaw

Penders

athletes more time, the presidents are going to come back with proposals like (the one reducing the number of basketball games and spring football practice). That ought to put the scare of God into everyone."

### Opinions

Tom Penders, head men's basketball coach  
University of Texas, Austin  
Dallas Times Herald

"We're skirting the real problem here (in reducing the number of basketball games). It was just window dressing that accomplishes absolutely nothing.

"The schools that do a good job (academically) will continue to do a good job; the schools that don't, won't.

"The real problem is with schools that take in kids who do not belong in the school, exploit the kids for three and four years, and don't give them any chance of graduating.

"Shortening the season has nothing to do with that. Until we do something about that, cutting three games will do nothing."

Charles E. Young, chancellor  
University of California, Los Angeles  
Chicago Tribune

"There ought to be a dramatic overhaul of the recruitment process.

"The recruitment of blue-chip athletes is demeaning to the coaching staff, the institution, the athlete and the high school. And it has a negative effect academically on the recruit.

"I can't understand how a top-flight athlete in football or

basketball can conceivably succeed in high school when putting in all the time he is on athletics, plus the time on being recruited."

Bill Bradshaw, director of athletics  
DePaul University  
Chicago Tribune

"I think we should all have to take the ACT or SAT before we can vote here (at an NCAA Convention).

"The test should be mandatory a week before the Convention opens, and we should have to meet a standardized score before we can raise a paddle and vote."

Chad Gallagher, varsity basketball player  
Creighton University  
Omaha World-Herald

"Sometimes, it gets to the point where we have games every two or three days when we're going to school. It might be better if more of those games were scheduled during the break. We get a month off where we don't have any school. I think it's fine then to play games every two or three days."

Dale Heckman, analyst  
California Postsecondary Education Commission  
Los Angeles Times

"Certainly, the day of the actual four-year degree is gone."

# Why should coaches give up chance to make good money?

(Editor's Note: Following are excerpts from a column written by Gene Keady, head men's basketball coach at Purdue University, in response to Indianapolis Star columnist Bill Benner, who proposed that coaches give up personal income to make up for money schools lose from the reduction of basketball games, beginning in 1992.)

By Gene Keady

Gene Keady

After reading Benner's column January 11—where he suggested (1) that college coaches are overpaid and (2) that we should give up some of the perks that go with the job, such things as shoe money, etc., I'm glad to have the opportunity to respond.

One of the great things about living in America is freedom of choice, being what you want to be. Another great thing about America is that it is the land of opportunity.

So, for instance, someone could start out as a mail boy at the bank, then move up to the stock room, maybe become a teller, then a loan officer, a vice-president and move up to president.

That's what the American dream is all about, right?

So I think a basketball coach ought to be able to do the same thing.

When I started coaching high school ball in Kansas, I worked seven years for virtually nothing—\$4,200 a year. I got my master's degree, then worked nine years as a junior college coach for nothing. Then, I paid my dues as an assistant at Arkansas, went to Western Kentucky for \$25,000, with a TV show that paid me \$2,000. Finally, I got to a program, Purdue, where I had a chance—and I want to emphasize the word "chance"—to make some nice money.

Benner mentioned giving coaches tenure. That's fine. I wouldn't mind being called a professor and having that kind of security. But they don't

do that. We don't have that kind of opportunity.

This is a high-risk business where you deserve to make money because, in many cases, you're not going to be around very long.

Benner also mentioned shoe-contract money. That's a luxury that, in my case, was brought about by

Nike. They started it to help the coaches stay in coaching because they couldn't afford to stay in on the money we were making.

It wouldn't be fair to make an athlete wear a certain brand of shoe if they were bad shoes... if they hurt his feet or he needs a special shoe. He can wear any shoe he wants to wear. If the AD would demand that the money go to the athletics department, and if you knew that when you interviewed for a job, that would be different. But when I was hired, Nike was part of my deal. I already had it for two years at Western (Kentucky), and Purdue knew it was going to get free shoes. I don't make many demands, but I said when I came here that I would like to keep my shoe contract.

Then, when you start winning Big Ten titles like we did and doing things kind of on a national scale,

Nike rewards you, and George (Purdue AD George King) let me keep the money as a reward.

Maybe a basketball coach shouldn't make more than the physics professor but, in a lot of cases, they're doing OK. Many of them make side income from serving on boards and being involved in projects. That's fine. You should have that opportunity if you have ambition. And if you have ambition, you should want to make those kinds of opportunities for yourself.

But if the board of trustees says you can't have that money, you've got to live with it. You can't fight it. I don't demand anything. I'm simply profiting from the system as it is now.

I expect to be rewarded if I do well, and if I don't, I'm going to lose my job.

Benner had some good ideas on

ways to save money. We could cut back on recruiting—where we stay, the type of meals we eat.

But I'm selfish. I don't want the coaches' pay cut because that hurts me. If I had to do it, I would, even though I feel I'm at the peak of my earning potential right now.

But if people have the impression that I'm living high on the hog, they're wrong. I don't get camp money, and I give speeches sometimes for little or no money. But everything I do have, I've earned. I came up the hard way. I'm from the old school.

I also think that some people believe that when basketball season's over, you're on vacation. We're actually busier. My average day most days is a 16-hour day.

We—my assistants and I—work hard, so I don't feel like I have to justify the money we're paid.

## Letter to the Editor

### Oberlin first

To the Editor:

At the 25th annual honors dinner of the NCAA in Dallas, Ronald Reagan made reference to his alma mater (Eureka College) as the first coeducational college in the United States. Since Eureka was not founded until 1855, I don't believe it can properly claim that distinction.

My great-great grandmother, Delia Fenn Andrews, graduated from Oberlin College in 1841, and women had been awarded degrees here three or four years prior to that. There seems to be general agreement that Oberlin College has the longest history of coeducation in the country.

There are a couple of Oberlin athletics items that probably are not as widely known as its priority in coeducation but that might be of interest to The NCAA News readership.

First, John Heisman, in whose name the prestigious trophy is awarded, coached football here early in his career. Second, a favorite trivia question around these parts is "Which was the last Ohio college to win a football game against Ohio State?" In the context of this letter, the answer should be clear.

# Statement to Convention on need-based financial aid

(Editor's Note: During the Divisions I and II business sessions at the 1990 NCAA Convention in Dallas, Marvin G. Carmichael, director of financial aid at Clemson University and a member of the Special NCAA Committee on Cost Reduction, presented the following report on the special committee's review of need-based financial aid for student-athletes.)

The Special Committee on Cost Reduction was established with the specific charge of identifying means of reducing costs in intercollegiate athletics. During this report, we will attempt to review factors that relate to need-based grant-in-aid programs; provide a brief explanation of defining financial need, and, as Gene Corrigan reported yesterday, offer a preliminary indication of the committee's attitude regarding need-based aid.

The committee reviewed several options that I think are important to note.

One was to look at applying a totally need-based concept. Second, athletics grants-in-aid covering tuition and fees, with additional aid based on need.

Third, athletics grants covering tuition and fees, with additional funds awarded on the basis of need—except for a specific number of grants that would be awarded in each sport. Fourth, athletics grants covering tuition and fees, room, board, and course-related books, with additional funds up to the cost of attendance based on defined need.

And fifth, (keeping the) status quo with a reduction in numbers (of available grants).

## Need principles

In considering a need-based aid program, you've got to understand

the principles behind student financial need.

Financial need is defined by establishing a cost of attendance and subtracting family contribution to come up with financial need. Plain and simple—you take what you've got, apply it to the cost, and what you have left is what is taken to pay the cost. You've obviously got to define cost.

The primary difference between what the financial aid office uses as cost of attendance and commonly accepted education expenses currently used for athletics grants-in-aid is supplies, transportation and personal expenses.

In defining financial need, we take into account supplies, transportation and personal expenses. Family contribution is obviously a key ingredient in this process.

Standards must be clearly defined to calculate the ability of a family to contribute to a student's cost of attendance. Both the parent and the student—when the student is dependent upon the parent—have to participate in this process. The process of defining need should be consistent with the same standards used in defining eligibility for a need-based student financial aid program in general.

Congressional methodology is used for most Federal and institutional aid programs. College Scholarship Services and the American College Testing Service provide need assessments at this point in time, at a charge.

I would like to walk through some examples of need calculation so that you will have a better understanding of how this whole process works.

## Three examples

We have three scenarios—Student A, Student B, Student C. We

have defined their cost of attendance at \$6,000.

We are calling these students comparable in nature, so their costs should be identical. We're hypothetically picking three different family contributions just to give you some indication of how the process works.

Family contribution for Student A is \$700. This would typically represent your exceptionally needy student—your "Oliver Orphan" type student.

Student B's family contribution is \$1,500, which is middle of the road. Student C has a \$4,000 family contribution, which would mean less need, obviously.

Calculating need is simple. Subtract family contribution from cost of attendance, and you have financial need. Student A's financial need is \$5,300. Student B's is \$4,500, and Student C's financial need is \$2,000. It is important to make note of those figures.

Lets take a look at what a full grant-in-aid is in comparison to that.

For simplicity's sake, we have applied a \$300 value for supplies to make it understandable with these figures, which just came out of the air. They're close, but not actually absolute. You can certainly come up with your own assessment.

In this case, the Pell Grant has not been taken into account yet. A full grant-in-aid would be considered to be \$4,200. Compare that to financial need, and you can see what the difference is.

## Pell's effects

Let's look at what the Pell does in this whole process. The maximum (Pell award) that a student can get is \$1,400 above a full grant-in-aid, if

Marvin G. Carmichael

the student is eligible for up to a \$1,400 Pell Grant. If it is more than \$1,400, he or she is still only eligible for a \$1,400 Pell. (Editor's Note: Carmichael's presentation was made before Convention approval of Proposal No. 37, which raised the Pell maximum to \$1,700, beginning August 1, 1990. The chart below also does not reflect the change in amount to \$1,700.)

So, we add the \$1,400 for Student A and Student B because of the Pell Grants that we have estimated (\$2,300 for Student A, \$1,400 for Student B, 0 for Student C). You can see that the maximum amount of assistance that students can get in these scenarios would be \$5,600 for Student A; Student B would get \$5,600 because he or she is getting the maximum Pell as well, and Student C—with no eligibility for Pell aid—would only get \$4,200.

What is the difference if you apply a need-based aid program rather than the current situation? Student A would get \$300 less, Student B would get \$1,100 less and Student C would get \$2,200 less.

## 'Oliver Orphans'

It is possible for the neediest of students, the "Oliver Orphans," to receive more money from a need-based program, depending on what the institution uses to define cost-of-attendance amounts for supplies, transportation and personal expenses—and any adjustments to family income or family contribution.

At most institutions, student-athletes will receive less money in a need-based system.

Because so many more students will be receiving less money under a need-based financial system, most institutions will realize cost savings—the fundamental purpose behind our committee. The amount of savings would vary from institution to institution, depending on the current level of financial aid commitment and the type of student-athlete being recruited.

Any resulting cost savings would be affected and offset by other significant problems, which are very important to note.

## Recruiting problem

Timing—coaches would not be able to make scholarship commit-

ments to prospective student-athletes in the current time frame, in that recruiting takes place far in advance of any current determination of financial need. This is due to regulatory enforcement.

Most decisions, in fact, are not finalized until after April 15. Grant-in-aid eligibility determination will fall under the Congressional legislative calendar, which includes annual adjustments to standards.

Any attempt to give coaches early need assessments, which currently do not exist formally, would be costly to develop. And any such attempt would be preliminary in nature—with limited levels of assurance from which student-athletes would be required to make institutional decisions.

Timing, professional judgment, verification of data and defined cost of attendance vary from institution to institution—questioning a "level playing field." When comparing offers made by different schools, confusion and suspicion will accompany student decision-making.

Additional administrative complexities and pressures placed on the institution—specifically on the financial aid office—would be an integral part of the implementation of the concept, because most students, even those with moderate to high need, would receive less money under a need-based financial aid system. The perceived opportunity for most athletes who attend institutions of higher learning would be reduced.

The Special Committee on Cost Reduction was established with the specific charge of identifying means of reducing costs in intercollegiate athletics without denying students access to higher education or significantly altering the competitive balance among NCAA member institutions.

It is the committee's current position that a system of awarding financial aid to student-athletes at least in part on the basis of financial need would by nature deny some students access to higher education, have a high potential for altering the competitive balance among member institutions and contain a significant potential for abuse—particularly during the recruiting process.

Any cost savings realized by grants-in-aid awarded through the application of need would be more than offset by additional administrative and programmatic cost.

For these reasons, and despite the potential cost savings involved, the special committee will not recommend further study or further consideration of a need-based financial aid system for athletes. The committee is, however, considering some reduction in numbers of grants-in-aids as a means of reducing costs.

## Conference suspends 14 players, reprimands coaches after fighting

A total of 14 basketball players—eight from Middle Tennessee State University and six from Tennessee Technological University—received suspensions ranging from one to four games following a fight between the two teams January 8.

Also, coaches Bruce Stewart of Middle Tennessee State and Frank Harrell of Tennessee Tech were reprimanded for failing to control their players, and a Tennessee Tech team manager was suspended from his duties for five games for striking a Middle Tennessee player.

In ordering the suspensions, Ohio Valley Conference Commissioner R. Daniel Beebe gave Middle Tennessee State the option of postponing the suspension of its three "least culpable players," but Stewart chose to hold out all eight of his suspended players and forfeit a scheduled league game January 15 at Tennessee State University.

The fight happened in the first half of Tennessee Tech's game at Middle Tennessee State, when a Middle Tennessee State player shoved a Tennessee Tech player who was shooting, according to a conference report. Three Middle Tennessee State and two Tennessee Tech players were ejected following the bench-clearing brawl. That game will count as one of the suspended games for the ejected players.

Three Middle Tennessee State team members received four-game suspensions, one was suspended for three games, three were suspended for two games and one was suspended for one game. One Tennessee Tech player drew a three-game suspension, three received two-game suspensions and two were suspended for one game.

"I cannot express strongly enough my bitter disappointment in the events that occurred or my resolve to ensure that similar events do not occur in the future," Beebe said in a statement announcing the suspensions. "Accordingly, every conference institution is provided notice through these actions that even stiffer penalties will be assessed if fighting occurs in the future."

During a news conference January 13, Beebe told reporters he thought the fight "was the worst I've seen in an athletics event." He said he was especially concerned about the players who left the bench to join in the fight.

"This type of fighting strikes at the heart of sportsmanship. My intention was for all players and

coaches in our conference to be put on notice that this type of behavior will not be tolerated."

Stewart's decision to forfeit Middle Tennessee State's game at Tennessee State prompted an angry response from Tennessee State coach Ron Abernathy, who complained that his school would lose significant revenue as a result. As many as 10,000 fans were expected to attend the game, which Abernathy said was the most attractive home contest on his team's schedule.

Stewart defended his decision, saying that the suspensions plus two injuries left his team with only three players.

"We exercised the option to sit out all of the suspended players at once and return our team to a whole unit as quickly as possible. We will not drag out the suspensions," he told United Press International.

"MTSU is not without fault and is guilty for participation in the fight," he continued. "I admit that some suspensions and reprimands are deserving. However, there were so many that our team has been decimated and we want to get it over with as quickly as possible. We will take our medicine and live with the decision made."

Beebe told United Press International he was disappointed that Middle Tennessee State chose to hold out all of the players at once, "because I gave them the opportunity to avoid a forfeit." He said he would consider compensating Tennessee State from revenues from the Tigers' game at Middle Tennessee State later in the season.

## News Fact File

The number of black Americans will increase by five million by the year 2000, and one in every three Blacks will live in five states—California, Florida, Georgia, Texas and New York. By the year 2030, the majority of the population of the United States will be members of minority groups, and Hispanics will be the nation's largest minority.

Source: Futurist John Naisbitt, quoted in a staff-prepared compilation of trends and emerging issues for the NCAA Committee on Review and Planning.

## Example of need determination

Student:		A	B	C
Cost of attendance:				
Tuition and fees	\$2,000	—	—	—
Room and board	2,000	—	—	—
Books and supplies	500	—	—	—
Transportation	500	—	—	—
Personal expenses	1,000	—	—	—

# Buffalo moves up plan to elevate football to Division I-AA

Sam Sanders has come home to help with remodeling.

Home is his alma mater, the State University of New York, Buffalo. Remodeled will be the entire Buffalo intercollegiate athletics program, including football, the team Sanders was named January 17 to coach.

"I'm happy to be home," said Sanders, a 1960 Buffalo graduate who played varsity football at the

school in 1957, 1958 and 1959. "I began wanting this job about 1961, and here I am."

Although Sanders' coaching experience was a factor in his selection, according to Buffalo athletics director Nelson E. Townsend, "the key element in the decision was his quiet yet forceful demeanor and his unquestionable integrity concerning intercollegiate athletics.

"As a former UB scholar-athlete," Townsend added, "Sam projects just the image we wish to instill as part of the university's efforts to provide a quality experience for its student-athletes."

Which is where the remodeling comes in.

Buffalo already has under way a three-year plan to upgrade six sports (men's basketball, women's basketball, men's swimming, women's swimming, women's volleyball and wrestling) to Division I quality.

Buffalo also will sponsor varsity programs in men's and women's cross country and indoor and outdoor track, men's and women's tennis, and men's and women's soccer.

Two years ago, SUNY's board of trustees approved the school's request to become the first school in the system to award athletics scholarships.

In announcing Sanders' selection, Townsend said the school has redefined the original plan, which had not called for football to be considered for elevation from Division III before 1994. He said the revised schedule will have Buffalo competing in Division I-AA (based on NCAA approval of a reclassification request) beginning in 1993.

Townsend also told the Associated Press that officials have held preliminary, indirect talks regarding possible conference affiliation. The Ivy Group, Patriot League and Yan-

kee Conference all are Division I-AA leagues in Buffalo's region.

Townsend said the announcement last year that Buffalo would become the first American city to host the World University Games (1993) allowed the school to accelerate its football plan.

"That's been very instrumental in that we now have plans for a stadium," Townsend said of Buffalo's getting the 1993 games. Those plans call for UB Stadium to be expanded from 4,000 to 35,000 seats in time for the international competition.

"Right now, fund-raising is the most important thing that has to be done," said Sanders, most recently an assistant with the Canadian Football League Toronto Argonauts. "I'd like to be involved in it, and I plan to be involved."

"Not to go out and be a fund-raiser," he said, "but I think I have enough contacts and know enough

people that we can get our foot in the door. Then, we'll let the experts take over."

Sanders, a guard on the 1958 Buffalo team that won the Lambert Cup, played for the Buffalo Bills in 1960—the American Football League's initial season.

Following his professional career, the Kenmore, New York, native, coached defense at Lehigh and at his alma mater. He was named defensive coordinator at Northern Illinois in 1973.

Sanders was named head coach at Alfred in 1977. He compiled an eight-year record of 49-27-2 before being named linebacker and defensive line coach with the Argonauts in 1985.

"We have a lot of work ahead of us," Sanders said, "but it's work we'll get done to make this program the type of program people in the Buffalo community and the university can be proud of."

## Moral

*Continued from page 4*

when it comes to conference or NCAA legislation. My door and my mind are open to those who oversee intercollegiate athletics at Michigan State.

However, I do think it is my obligation to state some of the areas most in need of reform:

- Assure student-athletes we will not allow them to be left at mid-court and midfield on graduation day with only the echoes of cheering fans to console them. The athlete, though, has a concomitant obligation to work diligently and consistently toward a degree.

- Tell coaches we will honor contracts, and we expect the same from them. Wins and losses are one way to measure success but surely not the only way. "Coach, we will support you as a member of our academic community. But knowingly break a rule, and, as Father Hesburgh told his coaches at Notre Dame, you'll be out of here by midnight."

- Declare once and for all that too much time out of the classroom and study hall is harmful. Spring football, the NCAA basketball tournament and other events can take an inordinate amount of time away from academic pursuits.

- Mandate that coaches police their own profession. If a fellow coach is caught cheating, his or her peers should ban that violator from the profession, giving little sympathy to the probable claim, "I was only doing what the administration and alumni wanted."

- End the conspiracy of silence. If a recruit asks, "How much can I get?" coaches should make it known far and wide that this particular athlete is on the take, is not a professional and should not be allowed to receive a grant-in-aid at any institution.

- Punish alumni, alleged friends and boosters who commit violations in the name of the institution. No more tickets, no more access to practices, no more invitations to banquets, no more friendship with the coaching staff. Name the violators.

- Prohibit freshmen from playing intercollegiate athletics in their crucial transitional year. The image of a student-athlete playing in front of 76,000 fans before ever taking a college class is one that opens us to legitimate criticism.

To be sure, there are many other suggestions I could offer. But it is clear that the time has come for presidents and coaches, athletics directors and alumni, players, and boosters to join forces in a reform movement.

We owe it to the athletes; we owe it to their fellow students. We owe it to society. We in higher education must take the risk of being leaders in many areas of societal reform. It's vital that we start at home.

*DiBiaggio is president of Michigan State University. This article first appeared in Michigan State's alumni magazine.*

## On October 28, 1989, WORLDTEK TRAVEL brought URI & Villanova together in Italy for the Milano Football Classic. Everybody came home a winner!

It was history in the making as WORLDTEK brought together the University of Rhode Island and Villanova for the first American college football game ever played in northern Italy.

It was a massive undertaking, moving two teams, tons of equipment, and hundreds of fans, but in the end everyone came out on top.

For the players and coaches, it was the opportunity of a lifetime to play abroad.

For the fans, going on special WORLDTEK package tours, it was a unique chance to travel to Europe for less, while supporting their teams.

The universities were winners, too, with a no-cost opportunity to play abroad, revitalize fan interest, and profit financially.

Sound exciting? You bet it is.

If you'd like to take your team to play in Europe next year, call Andy Mooradian today at the number below for more details.

**WORLDTEK.**  
In sports travel,  
nobody does it  
better.

# NCAA Record

## CHIEF EXECUTIVE OFFICERS

**John W. Hennessey Jr.** named interim president at Vermont, where he is provost... **Charles T. Wethington Jr.** selected as interim president at Kentucky, where he is chancellor for the community college system and university relations... **T. Alexander Pond** appointed acting president at Rutgers, where he is vice-president.

## COACHES

**Baseball** **Larry Rispoli** selected at Stevens Tech. He is a former head coach at Rutherford (New Jersey) High School who currently is assistant to the president at Kookai Models Agency in Fort Lee, New Jersey... **Stan Meek** promoted from assistant at Oklahoma, replacing 22-year Sooner coach **Enos Semore**, who resigned for medical reasons. During his tenure, Semore coached his teams to an 851-370 record and eight regular-season Big Eight Conference titles. The Sooners also appeared in five College World Series under Semore... **John McGuirk** promoted from assistant at Fitchburg State, where he has been on the staff for two years. He replaces **Dick Ballou**, who resigned after five years in the post.

**Baseball assistants** **Mark Leavitt** appointed at Princeton, where he graduated in 1988 after a four-year playing career. Leavitt replaces **Dean Ehehalt**, who stepped down to teach full-time... **Johnny Hunton** came out of retirement to join the staff at Liberty. He was an assistant at South Carolina for 17 years before retiring last year... **Scott Bolton** selected at Fitchburg State, where he was team captain as a player last year.

**Field hockey** **Jackie Grady** promoted from assistant at Villanova, where she has served on the staff for three seasons. The former Old Dominion all-America and all-academic player replaces **Cheryl Massaro**, who resigned.

**Field hockey assistant** **Mandee Moore** named at Delaware, where she also will assist with women's lacrosse.

**Football** **Fran Meagher** selected at Muhlenberg after five years as head coach at Swarthmore, where he also coached men's lacrosse. Meagher also has been a football assistant at Johns Hopkins and Union (New York)... **Steve Hodgins** promoted from defensive line coach at Western Carolina, where he has been on the staff for 10 seasons. The former North Carolina offensive lineman, who also has served as offensive line coach, defensive coordinator and outside linebackers coach at Western Carolina, replaces **Dale Strahm**, who departed after one season at the school to become defensive coordinator at Duke. Strahm coached the Catamounts to a 3-7-1 record in 1989... **Dennis Therrell** promoted at Lock Haven, where he has been defensive coordinator for three seasons. He also has been an assistant at Middle Tennessee State. Therrell succeeds **Tom Jones**, who resigned with a three-year record of 6-25-2 to enter private business... **Sam Sanders** appointed at Buffalo, which plans to move from Division III to Division I-AA in 1993. Sanders, who previously was an assistant with the Canadian Football League's Toronto Argonauts, played at Buffalo in the late 1950s. He also has been a head coach at Alfred and an assistant at Lehigh and Northern Illinois.

Also, Arkansas' **Ken Hatfield** named at Clemson, replacing **Danny Ford**, who resigned after 11 years at the school. Through six years at Arkansas, Hatfield coached the Razorbacks to a 55-17-1 record and six bowl-game appearances. He also coached from 1979 to 1983 at Air Force, compiling a 27-31-1 mark. Ford's Clemson teams compiled a 96-29-4 record, including a 5-3 mark in bowl games. His 1981 squad was voted the No. 1 team in the nation in wire-service polls. The Tigers finished with a 10-2 record last season... **Jim Donnan** selected at Marshall after serving as offensive coordinator at Oklahoma since 1985. The former North Carolina State quarterback also has been on the staffs at his alma mater and at Florida State, North Carolina, Kansas State and Missouri... **Joseph Demelfi** named at Wilkes, where he also will be the school's assistant dean of admissions. He has been an assistant at Bloomsburg since 1974 and served as its assistant director of development for athletics from 1988 to 1989.

**Football assistants** **Bart Andrus** hired as offensive coordinator at Montana State, which also announced that defensive coordinator **Don Dunn** resigned to become defensive line coach at Pacific.

**Western Carolina** named **Steve Hodgins** football coach

**Joseph Demelfi** appointed football coach at Wilkes

**Dana Bible** joined football staff at Toledo

**Andrus**, who previously was offensive coordinator at Humboldt State for three seasons and also has been on the staff at Brigham Young, replaces **Lew Curry**, who resigned after three years at Montana State... **Dana Bible** and **Dean Pees** named offensive and defensive coordinators at Toledo, which also announced the selection of **Tom Amstutz** as an assistant. Bible previously was offensive coordinator and quarterbacks coach at Miami (Ohio), and Pees and Amstutz were aides at Navy. Toledo also announced the retention of four assistants—**Ron Curtis**, **John Obrock**, **Phil Parker** and **Pat Perles**... **Denny Moller** hired as defensive coordinator and secondary coach at Oregon State, which also named **Mike Wauflle** defensive line coach. Moller previously held a similar post at New Mexico. Wauflle, former defensive line coach at UCLA, replaces **John Neal**, who was named defensive coordinator at Pacific... **Ed O'Neil** and **Pat Flaherty** retained as offensive line coach and linebackers coach, respectively, at Rutgers.

In addition, **Bruce Johnson** appointed defensive backfield coach at North Carolina after serving as defensive coordinator at Air Force since 1984. He also has been on the staffs at Louisiana State, Citadel, Marshall, North Carolina State and Furman. In a separate move, Air Force announced the hiring of **Paul Hamilton** as quarterbacks and fullbacks coach. Hamilton previously was offensive coordinator and running backs coach at Wofford... **John H. Pettas** joined the staff at Kent after two seasons as running backs and special teams coach at New Mexico. He also has coached at Nevada-Reno... **Doug Mathews** hired as defensive coordinator at Vanderbilt, where he was a running back in the late 1960s. Mathews, who has been an aide at Tennessee for 10 seasons, replaces **Rick Christophel**, who was reassigned to duties with Vanderbilt's offense... **Lee Fobbs** appointed as a member of the defensive staff at Northeast Louisiana. The former Grambling all-America previously was head coach at Monroe (Louisiana) Carroll High School for five years. Also, Northeast Louisiana selected **Norman Joseph** as offensive coordinator and quarterbacks coach. Joseph returns to the school where he coached from 1978 to 1987, before serving on the staffs at Louisiana Tech and, most recently, Northwestern State (Louisiana)... **Jerry Jasinski** named assistant head coach at Illinois College. He was head coach for the past five seasons at Springfield (Illinois) Southeast High School... **Lebaron Caruthers** appointed strength coach for football at Alabama, replacing **Rich Wingo**. Caruthers is a former strength coach for the Phoenix Cardinals.

Also, **Mike Kolakowski** and **Steve DeVine** selected as defensive and offensive coordinators at Ohio. Kolakowski, previously at Maine, also will coach defensive backs, and DeVine, formerly at San Diego State, will coach the offensive line. Two other Maine aides also joined the Ohio staff—defensive line coach **Dick Cassels** and inside linebackers coach **Paul Ferraro**—and were joined by Clarion assistant **Bob Proctor**, who will tutor outside linebackers, and **Scott Woolf**, former Michigan graduate assistant coach, who will oversee quarterbacks and receivers. Ohio retained special teams and running backs coach **Nick Toth** and administrative assistant **Bob Kappes**... **Gary Darnell** appointed defensive coordinator at Notre Dame. He served for part of the past season as interim head coach at Florida... **Peter V. Mayock** joined the staff at St. Francis (Pennsylvania) after serving last season as special teams coordinator at Dickinson.

**Men's lacrosse** Swarthmore's **Fran Meagher** named head football coach at Muhlenberg.

**Women's lacrosse assistant**—**Mandee Moore** selected at Delaware, where she also will assist with field hockey.

**Women's skiing assistant** **James F. Hunt Jr.** appointed assistant Nordic ski coach at Colby-Sawyer. He is a certified professional ski instructor.

**Men's soccer** **Dan Coughlin** resigned at De Paul, where his teams have compiled a 10-51-5 record since 1987.

**Women's soccer** **Ralph Perez** has taken a leave of absence at Cal State San Bernardino to serve full-time as assistant coach of the U.S. men's soccer team as it prepares for this summer's World Cup competition.

**Men's and women's swimming and diving** **Hobart** announced it will not renew the contract of men's coach **Robert Beaudry**, who also will be released as head men's track coach. Beaudry is expected to remain with the swimming team through the end of the season... **James "Doc" Counsilman** announced his retirement after 33 years as men's coach at Indiana, effective at the end of the school year. From 1968 to 1973, Counsilman led the Hoosiers to six consecutive Division I team titles, and his teams also won 20 straight Big Ten Conference titles beginning in 1961. He also coached the U.S. Olympic men's swimming teams in 1964 and 1976, and his most famous protegee, **Mark Spitz**, won seven Olympic gold medals in 1972... **Randy Reese** said he will step down as women's coach at Florida at the end of the season to concentrate on coaching the Gator men's team. Reese, who has coached two Florida men's teams to Division I team titles, led the Lady Gators to a Division I crown in 1982. His women's teams have compiled a 115-6 dual-meet record through 14 seasons and never finished lower than third in NCAA championships.

**Men's tennis**—**Jon Hall** selected at Case Reserve after four years as head boys' and girls' coach at Kenston High School in Chagrin Falls, Ohio. He is a former Slippery Rock assistant who also was an aide during 1988 with Case Reserve's men's basketball team. Hall succeeds **Doug Mooney**, who is retiring as men's tennis coach and intramurals coach after serving on the school's athletics staff since 1955. Mooney's tennis teams compiled a 143-62 dual-match mark through 22 seasons.

**Men's track and field**—**Hobart** announced it will not reappoint **Robert Beaudry**, who also will be released as head men's swimming and diving coach at the school.

**Men's volleyball assistant** **Tom Gibboney** appointed for the new varsity program at Juniata, his alma mater. He is a high school football coach in the Huntington Area School District in Illinois.

**Women's volleyball** **Beth Launier** named at Utah after serving for two years as an assistant at Illinois, where she helped coach the 1988 squad to an appearance in the Division I semifinals. **Wrestling assistant** **Ron Gaffner** appointed volunteer assistant at Ferris State. He was head coach from 1974 to 1987 at Muskegon (Michigan) Community College and also has coached at Central Michigan.

## STAFF

**Development and marketing director**—**Mike O'Brien** stepped down at Ball State to become assistant development director at Pittsburgh.

**Media relations assistant** **Scott Ball** named at California.

## ASSOCIATIONS

**Bob Johnson** received a five-year contract extension as executive director of

the Amateur Hockey Association of the United States, where he has served since 1987... **John Junker**, executive director of the John Hancock Bowl since July 1989, selected as executive director of the Sunkist Fiesta Bowl. Junker was the Fiesta Bowl's assistant executive director for nine years prior to moving to the John Hancock Bowl.

## NOTABLES

**Bill Dellinger** of Oregon named Division I men's coach of the year by the United States Cross Country Coaches Association after leading the Ducks to a runner-up finish at the 1989 Division I championships and titles in the Pacific-10 Conference and District 8 meets. Also honored as district coaches of the year were **Vinnie Lananna** of Dartmouth, **Frank Gagliano** of Georgetown, **John Goodridge** of Wake Forest, **Walt Drenth** of Central Michigan, **Bill Bergan** of Iowa State, **Stan Huntsman** of Texas and **Sherald James** of Brigham Young... **Mark Carrier**, a free safety at Southern California, received the fourth annual Jim Thorpe Award as the nation's best collegiate defensive back... **Austin Daniels** of Hartford selected as Division I women's coach of the year by the National Soccer Coaches Association of America, which also honored Ithaca's **Patrick Farmer** as Division III women's coach of the year... **Bill Carr** appointed director of executive search and consulting services for Raycom Management Group, where he will manage the firm's Executive Search Service and ESS' Coaches Advancement Service. Carr is a former athletics director at Florida... **Rich Pierce** of Westfield State named athletics trainer of the year by the Eastern Athletic Trainers Association.

## DEATHS

**Frank Gompert**, head men's basketball coach at Wayne State (Michigan) from 1966 to 1973, died January 12 in Rancho Mirage, California, after a short illness. He was 58. He played basketball at Colorado from 1949 to 1953 and later was an assistant with the Buffaloes. Since leaving Wayne State, where his teams compiled a 75-85 record, Gompert had been a professional tennis instructor... **Dallas W. Norton**, assistant to the athletics director at Nevada-Las Vegas since 1976 and a former director of admissions at the school, died January 11 in Las Vegas. He was 79... **Ralph Heikkinen**, an all-America football guard at Michigan in the 1930s and a longtime attorney for General Motors Corporation, died January 11 of heart failure in Pontiac, Michigan. He was 72. Heikkinen was an assistant football coach at Virginia while attending law school there.

**Spurgeon Chandler**, a Georgia football and baseball standout from 1929 to 1932 who also was a pitcher with the New York Yankees for 10 years, died January 9 in St. Petersburg, Florida, at age 83. Chandler was named the major leagues' most valuable player following his 1943 season with the Yankees... **William H. "Bumps" Melvin**, a basketball forward at Canisius from 1944 to 1947, died January 9 in Cheektowaga, New York, at age 67. Melvin, who later was a police officer in Lackawanna, New York, was Canisius' first black basketball player... **Don Umferth**, a pitcher at Wisconsin-Stevens Point during the 1930s who went on to a 32-year career in various administrative posts with the Chicago White Sox, died December 4 in North Port, Florida, at age 75. Before joining the White Sox, Umferth also was a radio announcer for Wisconsin athletics.

## POLLS

### Division II Men's Basketball

The top 20 NCAA Division II men's basketball teams through January 15, with records in parentheses and points:

1. Virginia Union (13-0)	158
2. Metropolitan St. (14-1)	149
3. Ky. Wesleyan (13-1)	143
4. Southwest Baptist (13-0)	139
5. Mississippi Col. (12-1)	121
6. Alas.-Anchorage (12-4)	114
7. Morehouse (11-1)	104
8. Tampa (14-1)	98
9. New Hampshire Col. (12-2)	95
10. Phila. Textile (12-2)	94
11. UC Riverside (12-3)	92
12. Central Mo. St. (13-0)	80
13. Norfolk St. (11-1)	46
14. Fla. Southern (13-1)	45
15. New Haven (12-2)	45
16. Edinboro (12-0)	41
17. Cal St. Bakersfield (13-2)	35
18. Jacksonville St. (11-2)	26
19. North Dak. (11-2)	22
20. Texas A&I (13-2)	10

### Division II Women's Basketball

The top 20 NCAA Division II women's basketball teams through January 15, with records in parentheses and points:

1. Delta St. (10-1)	153
2. Central Mo. St. (14-0)	150
3. North Dak. (13-1)	142
4. Cal Poly Pomona (13-3)	138
5. St. Anselm (9-0)	123
6. Norfolk St. (12-1)	117
7. St. Joseph's (Ind.) (14-0)	112
8. West Tex. St. (12-1)	110
9. North Dak. St. (13-1)	101
10. Pitt-Johnstown (9-1)	88
11. Jacksonville St. (11-1)	79
12. St. Cloud St. (12-2)	70
13. Bentley (10-3)	62
14. Oakland (14-2)	58
15. Lock Haven (12-1)	49
16. Mo. Western St. (11-2)	37
17. SIU-Edwardsville (10-4)	21
18. Alas.-Anchorage (12-3)	21
19. Bloomsburg (11-2)	16
20. Cal St. Stanislaus (9-6)	13
20. N.C.-Greensboro (9-3)	13

### Division III Men's Basketball

The top 20 NCAA Division III men's basketball teams through January 15, with records:

1. Wittenberg	15-0
2. Buffalo St.	13-0
3. Western Conn. St.	15-0
4. Colby	8-0
5. Frank. & Marsh.	12-1
6. Menlo	11-2
7. N.C. Wesleyan	10-3
8. Wis.-Whitewater	10-3
9. Trenton St.	13-1
10. Calvin	15-1
11. FDU-Madison	11-1
12. Rochester	12-2
13. Neb. Wesleyan	11-3
14. Chris. Newport	11-4
15. North Adams St.	9-3
16. Hope	13-1
17. Potsdam St.	10-2
18. Jersey City St.	13-2
19. Randolph-Macon	12-2
20. North Central	9-4
20. Claremont-M.S.	12-3

### Division III Women's Basketball

1. St. John Fisher (12-0)	160
2. Eastern Conn. St. (8-1)	148
3. Hope (10-0)	141
4. Colorado Col. (12-3)	137
5. Maryville (Tenn.) (11-2)	126
6. Wartburg (13-2)	110
7. Scranton (10-3)	108
8. Western Conn. St. (8-1)	101
9. Heidelberg (11-3)	96
10. Concordia-Mhead (10-3)	94
11. Nazareth (N.Y.) (12-1)	80
12. Washington (Mo.) (11-1)	77
13. Kean (13-2)	63
14. Frank. & Marsh. (10-2)	47
15. Wis.-Eau Claire (9-4)	44
16. Augustana (Ill.) (12-1)	43
17. Centre (7-4)	38
18. St. Benedict (11-2)	29
19. Allentown (12-0)	15
20. Clark (Mass.) (10-2)	12

### Division I Men's Ice Hockey

The top 15 NCAA Division I men's ice hockey teams through January 14, with records in parentheses and points:

1. Michigan St. (21-4-1)	60
2. Providence (14-3-2)	54
3. Minnesota (16-7-2)	52
4. Colgate (13-3-1)	48
5. Wisconsin (18-7)	43
6. Lake Superior St. (20-4-2)	42
7. Clarkson (13-5-1)	36
8. Boston College (11-8-1)	29
9. Minn.-Duluth (15-9)	27
10. Boston U. (9-10-1)	20
11. Harvard (8-7-1)	20
12. Bowling Green (15-10)	13
13. Maine (17-6-1)	13
14. Alas.-Anchorage (13-5-1)	9
15. Michigan (14-10-2)	5
15. New Hampshire (10-7-5)	5

### Division III Men's Ice Hockey

The top 10 NCAA Division III men's ice hockey teams through January 14, with records in parentheses and points:

1. Wis.-Stevens Point (16-0-2)	40
2. Babson (10-1-1)	36
3. Wis.-Fau Claire (12-8)	31
4. Rochester Inst. (14-5-1)	30
5. Bowdoin (5-3)	23
6. Wis.-River Falls (9-6-1)	20
7. Hamilton (7-2)	16
8. Bemidji St. (9-7-1)	12
9. Union (N.Y.) (8-3-2)	9
10. St. Thomas (Minn.) (11-5)	4

### Division II Wrestling

The top 20 NCAA Division II wrestling teams through January 17 as selected by the National Wrestling Coaches Association, with points:

1. Central State (Oklahoma), 160;	2. Nebraska-Omaha, 154;	3. Portland State, 145;	4. North Dakota State, 137;	5. North Dakota, 127;	6. Ferris State, 121;	7. South Dakota State, 104;	8. (tie) Central Missouri State and Grand Valley State, 99;	10. Wisconsin-Parkside, 89;	11. Southern Illinois-Edwardsville, 81;	12. Buffalo, 71;	13. Ashland, 63;	14. Pittsburgh-Johnstown, 57;	15. Winston-Salem State, 45;	16. Lake Superior State, 37;	17. Northern Colorado, 34;	18. Cal State Chico, 26;	19. Humboldt State, 12;	20. (tie) Augustana (South

## CFA signs five-year ABC pact

ABC Sports has signed an agreement with the College Football Association for \$210 million over five seasons.

ABC will become the only over-the-air network to televise college football starting in 1991. It already has contracts with the Big Ten Conference and Pacific-10 Conference that run through the 1994 season.

"There's one network that will be covering it all," said Stephen J. Solomon, the senior vice-president of ABC Sports. "We think the opportunity for putting together all of college football is a wonderful broadcasting opportunity," he told the Associated Press.

The CFA, which has 64 member schools, is composed of five Division I-A conferences—the Atlantic Coast, Big Eight, Southeastern, Southwest Athletic and Western Athletic—and 20 independents.

The CFA has one season remaining on a \$64 million, four-year deal with CBS.

In addition to the ABC deal, the CFA already has a cable contract with ESPN, which is for \$110 million over four years, 1991-1994. Capital Cities, ABC's parent, owns 80 percent of ESPN.

"This was clearly the best deal for a variety of reasons," said David Ogrecan, assistant executive director of the CFA.

"There is an ESPN cable package that actually overlaps our package on Saturdays," Solomon said. "ESPN has a prime-time package. There's local syndication going on at all different hours and syndication at Turner (WTBS), which is a superstation and has a broad reach."

Solomon said ABC would be showing 25 to 35 games each year under the CFA and Big Ten and Pac-10 contracts and many games would be televised nationally.

## Metro, Raycom extend TV pact

The Metropolitan Collegiate Athletic Conference and Raycom, Inc., have extended their television agreement through the 1994-95 basketball season, with the new arrangement providing the league revenues in excess of \$4 million.

Raycom will continue to retain exclusive rights to the Metro's intraconference and postseason tournament television packages.

This season, the Metro Conference and Raycom are completing the final portion of a five-year contract, and the new pact calls for an additional five-year arrangement.

The new Metro-Raycom contract, like the current one, protects local television packages for all Metro teams, includes yearly minimum financial guarantees, requires a minimum of four appearances per school and expands the regular-season package to 28 games.

## Record

Continued from page 8

Dakota) and California (Pennsylvania), 9. Division III Wrestling

The top 20 NCAA Division III wrestling teams through January 19 as listed by the National Wrestling Coaches Association:

1. Ithaca, 2. Augsburg, 3. Trenton State, 4. Cortland State, 5. John Carroll, 6. Wisconsin-Whitewater, 7. Lycoming, 8. Buena Vista, 9. (tie) Mount Union and Brockport State, 11. Delaware Valley, 12. Simpson, 13. Kean, 14. Albany (New York), 15. St. Thomas (Minnesota), 16. Oswego State, 17. Worcester Polytechnic, 18. Rhode Island College, 19. St. Lawrence, 20. Wisconsin-Stevens Point.

## San Jose State's new center

**San Jose State University recorded its largest on-campus basketball crowd January 6 in a game with the University of Nevada, Las Vegas, with 4,595 spectators in the new student union recreation and events center, which was dedicated last**

**November. The \$36 million center is connected to an outdoor pool for the women's swimming team. The photo above is from an earlier year.**

## Cincinnati to expand and renovate football stadium

The University of Cincinnati will provide a new home for its football program by making a \$13.5 million renovation and expansion of its on-campus stadium. Funding for the project will come from private donations.

The reconstruction project, which will begin in the spring, will increase the stadium capacity to 35,000. There will be added concession facilities and a four-fold expansion of

restrooms. A three-tiered press box will be constructed on the west side, and stadium lighting will be increased.

The current three-year-old artificial turf will be relocated to an area south of Shoemaker Center after spring football practice to provide a practice and recreation facility, and new turf will be installed in the stadium.

The project is expected to be

completed for the 1991 football season. Cincinnati will play only three home games in 1990, all at Riverfront Stadium.

"This is a tremendous step forward for our football program, one which will greatly enhance our efforts toward recruiting quality athletes and bringing good football to Cincinnati," said Charles F. "Rick" Taylor, director of athletics.

"The renovation will bring our

football stadium up to the standards of the other buildings on campus and, with our new Shoemaker Center, provide a total, excellent complex of athletics facilities," Taylor said.

The stadium renovation is the first of a two-phase plan for improving outdoor intramural, recreation and athletics facilities.

Phase II will include the development of a grass practice and recreational area south of Shoemaker Center, renovation of the outdoor track, creation of a track and soccer complex, and the upgrading of the baseball field. The estimated cost of this phase is \$1,750,000.

Timetables will not be established for the latter phase until the stadium project is closer to completion.

Cincinnati has been playing football at its current stadium site since 1902. Expansions in 1935 and 1954 increased seating capacity to 26,592. Artificial turf was first added in 1970 and replaced in 1978 and 1986. The stadium is one of the most-used facilities on campus. The turf is in use an average of 14 hours daily, 80 percent of that time for intramural and recreational activities.

## Adrian will dedicate sports center

Adrian College will dedicate its \$6 million Merrillat Sport and Fitness Center January 21.

The 80,000-square-foot building includes a 1,300-seat basketball arena that now serves as home to the basketball and volleyball teams. The complex also features a multisport forum for basketball, volleyball

and tennis; two racquetball courts; an athletics training room; weight-training rooms; classrooms; a physiology laboratory, and dance studio.

The multisport forum is encircled by a one-tenth mile running track. A retractable batting cage is available for baseball and softball practice, while field-event practice areas are

provided for the men's and women's track teams.

"The Merrillat Sport and Fitness Center is a facility that recognizes the needs of all students and other members of the college community," said Stanley Caine, Adrian president. "It will enhance our intercollegiate athletics program, but more important are the opportunities it will provide for exercise and enjoyment for everyone at Adrian."

The Merrillat center also houses offices for athletics administrators, physical education faculty and coaches, as well as locker-room facilities. In addition, the building contains a VIP viewing area, lounge and press box. A natatorium and two more racquetball courts will be added when funds become available.

The Merrillat Sport and Fitness Center is one of the major goals of Adrian College's \$15 million capital fund-raising program called EXCELLENCE—The Adrian Advancement Campaign. Major support for the project came from a leadership pledge from Orville and Ruth Merrillat of Adrian. The Kresge Foundation also approved a grant on a challenge basis to help the college raise the remaining funds for construction.

The center replaces Ridge Gym, which stood as one of the oldest athletics facilities among Michigan Intercollegiate Athletic Association member colleges.

## NCAA

Continued from page 1

termotion filed by Tarkanian, included the following elements:

- It acknowledged a December 1988 ruling by the U.S. Supreme Court that the NCAA was not a state actor and, therefore, could not be charged with violating Tarkanian's right to due process during an investigation and hearings.

- It stated that, because of the Federal court ruling, Clark County

(Nevada) District Court would have to rule on dissolving or continuing the injunction against UNLV (since it granted the injunction) that prevents UNLV from taking action against Tarkanian.

- It stated that Tarkanian is not entitled to an award of legal fees from the Association because he "simply cannot be considered as having prevailed against the NCAA."

## All

Continued from page 1

practice in Division III tennis) and No. 30-11 (to permit one scheduling exemption every four years in basketball).

On the latter, there also were five defective ballots, which are not counted in Convention voting records. Old Division III

record: 235, 1989, considering athletics ability in financial aid packaging in that division.

In Division II, the record vote of 187 (1988, Division II tryouts) was not surpassed. The highest Division II counted vote in Dallas was 184 on No. 24-D, the graduation-rate disclosure proposal.

## Six Big Ten championships to be on TV

Six Big Ten Conference championships events will be televised around the Midwest to an audience of more than two million viewers under an agreement between SportsChannel and the Big Ten.

Both SportsChannel Chicago (1.6 million subscribers) and SportsChannel Ohio (600,000) will carry the championships tournaments for men's gymnastics, wrestling, women's gymnastics, baseball, and men's and women's outdoor track and field. Several of these events also will be shown around the country on other SportsChannel regionals.

# As use of three-pointer goes up, scoring goes down

By James M. Van Valkenburg  
NCAA Director of Statistics

Use and popularity of the three-point shot continues to climb in its fourth season, even though scoring is down at midseason in men's Division I basketball.

One of every 4.7 shots now is a three-pointer, compared to one of every 6.4 in 1987, the first year of universal use (only experimental use allowed before that). It has brought more excitement, for spectators and players alike.

At midseason, the average game involving at least one Division I team produced 9.22 successful three-pointers in 25.31 attempts (both teams combined). In 1987, the final figures were seven made in 18.25 attempts, in 1988 it was 7.97 in 20.84 and in 1989, it was 8.87 in 23.60.

At the same time, three-point accuracy continues to drop as more players shoot it more often. In 1987, it was 38.4 percent; in 1988, 38.2; in 1989, 37.6; and at midseason, 36.4 percent.

## Scoring, shooting down

The perennial national scoring offense leader, the Big Eight Conference, leads again with 88.1 points per game per team, and tops the country in field-goal accuracy at 50.3 percent.

But the national trend is down in both categories. Scoring is 149.3 points per game (both teams combined) at midseason. That is a drop of 2.1 from last season's final 151.4—highest since 1975's 153.1. The record is 155.4 in 1971.

Scoring usually increases in the last half of the season (although it did not last year), so it still might equal last year's. And it is above the 147.8 in 1988 and 145.4 in 1987, first two seasons of the three-pointer.

Two-point accuracy had climbed in 1988 and 1989, as the three-pointer opened up the inside game—the thing it was designed to do. This offset the drop in three-point accuracy, so that national accuracy from all ranges moved upward.

The reverse is true at midseason, with accuracy from all ranges at only 45.6 percent vs. 1989's final 47 and two-point accuracy only 48.1 vs. last season's final 49.8—a two-point record (48.1 in 1984 is the record from all ranges).

Free-throw accuracy at midseason is only 68.1 percent vs. last season's final 69.1. The record is 69.7 in 1979.

## Conference leaders

Looking at the top 10 conferences in field-goal accuracy, only the Big Eight is up over last season's final figure (50.3 vs. a third-place 49.4). The other nine are down. The second-place Big Ten Conference is at 49.8 (vs. a leading 50.5 last year) and the Atlantic Coast Conference is 49.3 (vs. a second-place 49.7). The Pacific-10 Conference (48.2) and Big East Conference (47.9) follow.

In scoring offense, the Big Eight, the national leader over the past six years combined, is far in front with 88.1, as mentioned. Next are the Southwestern Athletic Conference at 84.2; ACC, 84; Southeastern Conference, 80.9; and Southwest Athletic Conference, 80 (edging the Big East's 79.9).

In three-point accuracy, it is ACC, 40; Ivy Group, 39.5; and Big Eight 39.1. In three-pointers made, the Southern Conference edges the SEC, 5.924 to 5.916 per game despite Kentucky's big numbers, with the Mid-American Athletic Conference third at 5.39. In free-throw accuracy, it is MAC, 71.2; Western Athletic Conference, 71.0, and

**Aurora junior Conrad Youngblood ranks among Division III men's scoring leaders**

**Cathy Hagenbaumer, Central Missouri State, is among Division II women's assist leaders**

**DePaul's Veronica Ross is fourth among Division I women in assists per game**

**Stephen Scheffler of Purdue leads Division I men in field-goal percentage at 72.9**

Midwestern Collegiate Conference, 70.5.

## Women's three-pointers grow

This is the third year for the three-point shot in women's basketball, and its use is growing at a faster pace than in the men's game. At the same time, the "accuracy gap" between the men and women continues to shrink.

At midseason, the average game involving at least one Division I team produced 4.22 successful three-pointers (both teams combined) in 12.41 attempts. In 1988, the first year, it was 3.03 in 9.02 and in 1989, 3.71 in 10.89.

Successful three-pointers thus have jumped 39.3 percent in 2½ seasons in women's basketball com-

pared to 15.7 percent by the men in the same span. At the same time, men are shooting them a little more than twice as often.

As for the accuracy gap, women's accuracy at midseason is 34 percent—only 2.4 points behind the men's 36.4. The gap was 3.5 (34.1 vs. 37.6) last year and 4.6 (33.6 vs. 38.2) the first season.

## Basketball notes

As for the accuracy gap, women's accuracy at midseason is 34 percent—only 2.4 points behind the men's 36.4. The gap was 3.5 (34.1 vs. 37.6) last year and 4.6 (33.6 vs. 38.2) the first season.

**Scoring, shooting down**  
At midseason, scoring (138.4, both teams combined), field-goal accuracy from all ranges (42.4), two-point accuracy (43.2) and free-throw accuracy (66.2) all are down from last season's final figures of 138.6, 43, 43.8 and a record 67.1, respectively. The other records are 139.4 points per game in 1984 (first year the trends were compiled), 44.2 from all ranges in 1986 and 44 from two-point range in 1988. Greater use of the three-point shot brings down accuracy from all ranges.

## Conference leaders

The SWAC, second in scoring offense among men's conferences, leads the women in scoring, 76.40 to 76.24 for the New South Women's Athletic Conference. The New South leads in field-goal accuracy (46.5), the ACC in three-pointers made (2.85 per game), and the North Atlantic Conference in both three-point (40.1 percent) and free-throw (70.4) accuracy.

## Top women's coaches

Louisiana Tech coach Leon Barmore leads Division I women's basketball in wins per season at 30.1 and winning percentage at .902, while Texas' Jody Conradt, an .814 winner, is on top in career victories at 529 entering this season. They lead an outstanding field that includes 32 coaches averaging

at least 20 wins per season. Long Beach State's Joan Bonvicini is second to Barmore with 27.6 wins per season, followed by Conradt's 26.5, Tennessee's Pat Summitt at 25.7, Georgia's Andy Landers at 25.1, Western Kentucky's Paul Sanderford, 25.0; Mississippi's Van Chancellor, 24.6; Auburn's Joe Ciampi 24.4; Nevada-Las Vegas' Jim Bolla, 24.1; Montana's Robin Selvig 23.5 and Southern California's Marianne Stanley 23.3; and Iowa's Vivian Stringer 23.1, making 12 with at least 23.

The winning percentage top 10 shows only one new name, ninth-place Theresa Greutz of Rutgers, with .776. Behind Barmore's .902 are Bonvicini, .836; Stringer, .817;

Conradt, .814; Ciampi, .803; Selvig, .789; Summitt, .783; Landers, .782; Greutz, and Bolla, .772. Twenty-one more reached at least .700 through last season (minimum five years as a Division I coach).

Thirteen coaches had at least 300 career wins entering this season. Behind Conradt are Fresno State's Bob Spencer, 518; Louisiana State's Sue Gunter, 413; Florida State's Marynell Meadors, 397; Stringer, 392; Summitt, 385; North Carolina State's Kay Yow, 372; UCLA's Billie Moore, 370; Memphis State's Mary Lou Johns, 365; Greutz, 336; Cal State Fullerton's Maryalce Jeremiah, 325; Illinois State's Jill Hutchison, 321; and St. Peter's Mike Granelli, 304. Among Division I coaches with fewer than five seasons in the division, Bill Sheahan of Mt. St. Mary's (Maryland) has an .855 career percentage, Lalor Jones of North Carolina-Asheville .783, and North Carolina's Sylvia Hatchell leads this group in wins at 312 entering the season.

Tara VanDerveer, with 21.3 wins per season, moved from Ohio State to Stanford five years ago and has built that program from mediocrity into one of the country's best. A former Indiana guard, she used to watch Bob Knight's team practice every day for three years before joining her teammates.

"I'm just intrigued by basketball," she told Debbie Becker, USA Today. "I just love watching how it works. There's so much to learn about it, so much to watch. There are no patents in basketball, so you can steal anything, and I do."

## Division II-III leaders

Cal Poly Pomona's Darlene May, the only 400-game winner in Divi-

sion II, also leads in wins per season at 26.5, while Delta State's Lloyd Clark leads in winning percentage at .852.

Clark is second at 25.8 wins per year, then Norfolk State's James Sweat, 24.8; Saginaw Valley's State's Claudette Charney, 23.6; Southeast Missouri State's Ed Arnzen, 23.5; and Pittsburgh-Johnstown's Jodi Gault, 23.3. In winning percentage, it is Gault second at .845, May, .814; Arnzen, .792; Charney .787; Sweat .773; and North Carolina-Greensboro's Lynne Agee, .768.

After May in victories come Gannon's Judy Saurer, 333; Hampton's Tiny Laster, 314; and Stonchill's Paula Sullivan, 303.

In Division III, St. John Fisher's Philip Kahler leads in winning percentage at .835, and his 23.9 wins per season are second to 24 by Concordia-Moorhead's Duane Siverson. In career victories, it is Bridgewater's (Virginia) Laura Mapp at 378, Kahler with 359 and Elizabethtown's Yvonne Kauffman 346.

Salem State's Tim Shea at .825 is third in percentage, just behind Siverson's .828; then come Kauffman .795, Scranton's Mike Strong, .789; and St. Norbert's Connie Tilley .771. Shea is averaging 23.6 wins and Strong 23.2.

May is proud that her college has won three national championships and has taken second place three times, but almost as important is the 15-year consistency.

"I have such a tremendous desire to excel that if we lose, I always take it personally," she says. "I just don't accept losing. Even if I'm just fishing, I don't like to lose—and I like to fish."

She credits long-time assistant Barb Thaller for a big part in her success.

"Athletes have changed a lot in my 15 years," she says. "I think I've changed along with them and learned how to communicate. In my first two or three years, I was awful in that regard."

"The competition for recruiting the athletes has really changed. I can't even begin to explain what it's like to recruit now. You have to find sleepers—at our level, you don't have any other choice."

## Quotes of the week

Missouri senior Lee Coward, reacting to the news that his Missouri team had taken over the No. 1 spot in the polls after a victory over then No. 1 Kansas January 20: "You might as well take the good with the good." Said freshman Travis Ford: "I've suddenly got a lot more friends."

Kansas coach Roy Williams, whose team took its first defeat of the season and dropped to No. 2:

"They say a loss now and then helps, but I haven't figured out how."

The victory came before a home crowd and on the 55th birthday of Missouri coach Norm Stewart. Before the game, Williams handed Stewart a wrapped package. By game's end, he still hadn't opened it, saying: "I'm gonna put it in water first. Hey, I'm kidding. Roy and I have a great relationship."

After the postgame interview, Stewart finally unwrapped the gift and found a "Crack-Up" or exploding golf ball, a gag gift for golf fanatics like Williams and Stewart, who said, "See, I wasn't far off."

## 68,112 paid

Paid attendance was 68,112 for the Louisiana State-Notre Dame game January 20 in the Louisiana Superdome in New Orleans—a record for college basketball. This broke the 66,144 at the same site for LSU-Georgetown, January 28, 1989. LSU won both games.

More than \$100,000 from the game will be donated to the homeless. A fatal auto accident that closed the highway next to the stadium for two hours, plus bad weather, held the turnstile count to 44,233.

## Twin power

Virginia Military's identical twins, Ramon and Damon Williams, had identical career scoring totals of 1,292 points after the first 12 games for a total of 2,584, surpassing the 2,492 by the Van Arsdale twins, Dick and Tom, at Indiana in 1963-1965. Only Seattle's O'Brien twins, Fiddie and Johnny, with 4,024 in the early 1950s, have more. (Mike Strickler, Virginia Military SID)

## Beyond the call

When Cal State San Bernardino's Teri Paine was married January 13 and returned from her honeymoon to play against Midland the next day, everyone thought she and her husband, Phil, had gone beyond the normal call of duty. So the athletics department and a local pizza place provided a cake in the shape of a basketball court for all 200 spectators. Paine responded with 27 points and 14 rebounds—her best game of the year—in a 75-70 victory. Explained teammate Laura Beeman: "It was the lovin'." (Dave Beyer, Cal State San Bernardino SID)

## Can you top these?

The Eastern Michigan men had made 20 consecutive free throws in overtime this season without a miss through January 7, and they have made 24 straight over two seasons in overtime. Can any team in history top that? (John Hamel, Eastern Michigan SID)

# Athletes urged not to rely on nutritional supplements

The NCAA Committee on Competitive Safeguards and Medical Aspects of Sports is urging student-athletes to rely on sound eating habits rather than nutritional supplements to enhance athletics performance.

At its January 17-18 meeting in Kansas City, Missouri, the committee approved a policy statement stressing that proper nutrition is the best and safest way to achieve peak performance.

"When athletes consume a sufficient variety of foodstuffs to provide adequate calories, carbohydrates, protein, fat, vitamins and minerals," the policy says, "there appears to be no valid reason for consuming (nutritional) supplements if sound dietary practices are followed."

The committee adopted the statement in response to the increasing interest in ergogenic aids, defined as

"any substance or procedure that either improves or is thought to improve physical performance." Ergogenic aids include such common nutritional supplements as vitamins, minerals, amino acids, special proteins and herb extracts.

## No positive effect

"By far, the majority of studies have revealed that such ergogenic aids have little or no positive influence on exercise performance and that they may be physiologically detrimental to the athlete's well-being," the policy says.

"Health food stores are telling student-athletes that substances like amino acids, bee pollens and herbs improve athletics performance," said Frank D. Uryasz, NCAA director of sports sciences. "But they're expensive, and they don't work. By adopting this policy, the committee hopes that athletics trainers and

sports-medicine professionals will pass the word on to student-athletes who inquire about the use of such supplements to gain a competitive edge."

If approved by the NCAA Council at its April 23-25 meeting, the policy statement will become the official position of the NCAA and

## Competitive safeguards committee will work with Wrestling Committee to examine changes in athletes' weight between weigh-in and competition at national championships

will be published in the Sports Medicine Handbook.

## Wrestling study

The competitive safeguards committee also proposed to work with

the NCAA Wrestling Committee and an experienced sports-medicine researcher to examine changes in wrestlers' weight between weigh-in and competition at national championships. Of particular interest to the committee is whether a relationship exists between the amount of weight a wrestler gains after weigh-

study the feasibility of allowing entire conferences to participate in the Injury Surveillance System in a particular sport. The committee would allow conferencewide participation only if it did not alter the geographical distribution of schools in the sample or reduce the reliability of the survey. Any proposal for conference participation must be approved by the NCAA Executive Committee.

• Formed a subcommittee to develop a long-term (one- to five-year) plan for the NCAA sports-sciences program. The plan could identify areas of special concern, funding priorities and sources, possible new projects, and programs in need of expansion. The committee acted in response to a request from the NCAA national office.

• Set two dates for the drug-testing and drug-education subcommittee to meet before out-of-competition drug testing begins this fall. The subcommittee will convene March 13 and April 4 to develop a protocol for the year-round program and to complete the testing plan.

• Recommended that committee-structure legislation be revised to specify that a primary care (family) physician and an orthopedic specialist be among the three medical doctors who must serve on the committee. The primary care physician also must be a doctor for a collegiate athletics team.

Currently, the only requirement is that one physician is a woman; they all may have the same specialty. The committee recommends keeping the one-female requirement and specifying the area of specialty for two of the doctors to ensure that the committee represents a greater range of medical expertise.

in and the quality of his performance in the match.

The committee said it supports the intent of the research and wants to help the Wrestling Committee obtain the data necessary to make decisions in the best interests of the student-athlete.

In addition, the committee discussed the need for NCAA research on surface-related injuries—specifically, comparing injury rates on grass with those on artificial surfaces.

Committee members noted that NCAA Injury Surveillance System data for Division I-A football reveal no significant injury-rate differences by surface, and the committee agreed that interest in the effect of surface on injuries is not as high as it was three years ago. The committee concluded that the Injury Surveillance System provides adequate information on the topic and that no additional research by the NCAA is needed at this time.

In other actions, the committee:

• Directed the NCAA staff to

## '90 basketball championship guide is available for order

Now available, the 1990 Official NCAA Basketball Championship guide is a 112-page, four-color publication that includes information regarding sites of all rounds of the Division I Men's Basketball Championship.

General information pertaining to each site includes arena diagrams, hotel and restaurant directories, March weather information, time zones, and a map of the area surrounding the arena.

The guide also includes feature stories, trivia questions and some tournament history.

The guide is the brainchild of Doug Iler and is in its second year of publication.

Last summer, Iler surveyed the readers of the first edition of the guide. Most were satisfied with the initial product. The most frequent request for additional information regarded tickets.

As a result, this year's guide in-

cludes ticket-price and ordering information for all first/second-round and regional games. Ticket information for the Women's Final Four and the finals in the men's and women's Divisions II and III championships also is listed.

In addition, Iler included as much ticket information regarding conference tournaments as he could obtain prior to his publication deadline.

Another new addition to the guide is a ticket application for the 1991 Final Four in Indianapolis and a list of do's and don'ts in applying for tickets. The do's list includes applying after March 1, 1990. Applications sent in earlier will be returned.

The guide can be ordered by sending \$6.50, which includes postage and handling, to NCAA BB Guide, P.O. Box 32157, Louisville, Kentucky 40232-2157. Credit card holders can order by calling 1-800/866-0866.

## A record for 'buckets' after rain in Maine falls mainly on a game

It was a pretty interesting basketball game.

Colby College defeated the University of Southern Maine in a game that saw a 49-point performance by a Colby senior overshadowed by a rain delay.

Yes, a rain delay—a six-day, five-minute delay to be exact.

The game was stopped at 2:21 into the first half January 10 after Colby forward Kevin Whitmore slipped in a puddle under a leaky roof in Southern Maine's gym. Deciding that playing conditions were too dangerous, officials halted the game with Colby leading, 7-4.

Since Colby's women were scheduled to play at Southern Maine January 16, the men's contest was rescheduled for that night as part of a doubleheader.

However, the game's resumption almost was anticlimactic. Between January 10 and 16:

• Debate raged in the Maine press over whether the game should be resumed from the

point of suspension or restarted. NCAA rules settled the controversy, stating that the game should be resumed.

• Reporters also debated who would get possession of the ball. Since Colby's Whitmore lost the ball out of bounds when he slipped in the puddle, Southern Maine was awarded the ball.

• On the day the game was to resume, the Colby men's and women's teams climbed on the same bus for the trip to Southern Maine via the Maine Turnpike. En route, the bus blew a tire.

As the bus sat alongside the road, Colby men's coach and athletics director Richard Whitmore ordered the women to hand over the box suppers they planned to eat after their game so that the men could eat a pregame meal. The women charitably complied. Somehow, the bus got the teams to the Southern Maine gym, although with only 20 minutes remaining before the start of the women's game.

• Not even the referees could escape controversy. When referee Al Neri and his partner halted the men's contest January 10, they beat a hasty retreat from the packed gym before their decision was announced. Neri, however, received a check for his abbreviated night's work, then picked up a second check for the resumed game.

When he was asked if he would share two-plus minutes' worth of his check with the new partner who was assigned for the resumed game, Neri elected not to comment.

The game resumed under a bright blue tarp that had been installed under the roof by a fan—in futility—on that rainy night six days before. Colby won, 96-80, behind all-America Matt Hancock's 49 points—a team record and also a Southern Maine gymnasium record.

Information for this story was provided by Sally Baker of Colby College.

## Deadline for scholarship applications for basketball players is February 23

Nominations for NCAA postgraduate scholarships for men's and women's basketball players must be mailed by February 23 to the appropriate district selection committee chair, as outlined in the instruction and nomination folder that has been mailed to all NCAA member institutions.

A total of 20 scholarships (10 for men and 10 for women) of \$4,000 each will be awarded by the NCAA

Postgraduate Scholarship Committee, which, since 1964, has been honoring outstanding student-athletes from NCAA member institutions who excel academically and athletically.

Eight scholarships (four for men and four for women) will be allocated to Division I student-athletes, and eight (four for men and four for women) will be awarded in Divisions II and III. The remaining four scho-

larships (two for men and two for women) will be awarded at large.

Faculty athletics representatives are responsible for collecting the completed nomination forms and forwarding them, along with an official transcript of the candidate's academic record, to the appropriate district selection committee chair.

Each institution is asked to limit its nominations to one male student-athlete and one female student-athlete. Institutional representatives and student-athletes must complete the five forms included in the scholarship folder.

The Association annually awards 100 postgraduate scholarships of \$4,000 each. In addition to the 20 scholarships for basketball student-athletes, 25 are presented to football participants and 55 (30 for men and 25 for women) to varsity athletes in sports other than football and basketball in which the NCAA sponsors championship competition.

Additional information may be obtained by contacting Fannie B. Vaughan, executive assistant, at the NCAA national office.

## Calendar

January 26-29	National Youth Sports Program Committee, San Diego, California
January 30-February 2	Division III Women's Volleyball Committee, Kansas City, Missouri
February 2-4	Committee on Infractions, San Diego, California
February 6-9	Men's and Women's Soccer Committees, Kansas City, Missouri
February 6-9	Men's and Women's Soccer Rules Committee, Kansas City, Missouri
February 11-13	Committee on Women's Athletics, Kansas City, Missouri
February 11-13	Division III Football Committee, Kansas City, Missouri
February 15	Special Committee to Review the NCAA Membership Structure, Phoenix, Arizona
February 19-22	Division I-AA Football Committee, Kansas City, Missouri

## Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to The NCAA News at the NCAA national office.

**Q** Now that the 1990 NCAA Convention is history, when will the new Manual be available?

**A** Work already has begun on revising the NCAA Manual to incorporate legislative changes approved by Convention delegates in Dallas. Mailing of the 1990-91 master Manual is scheduled to begin March 16. Work on revision of the division Manuals will begin immediately following delivery of the master Manual.

## Low-income minorities skip college

The percentage of low- and middle-income Blacks and Hispanics entering college after high school graduation declined dramatically in the past decade, and fewer black college undergraduates achieved degrees, the American Council on Education has reported.

The "Eighth Annual Status Report on Minorities in Higher Education," released by ACE's Office of Minority Concerns, said that based on Census Bureau figures, college participation rate for dependent low-income black high school graduates between 18 and 24 dropped from 39.8 percent in 1976 to 30.3 percent in 1988.

### Rate falls

For Hispanics, the rate fell from 50.4 percent to 35.3 percent, "indicating an educational failure rate of intolerable magnitude," the report said.

"Since the mid-1970s, the college participation of African Americans and Hispanics has been a picture not of progress, but of major regression," the report said.

Low-income white high school graduates made a slight gain in college participation, rising from 36.8 percent to 38.8 percent, according to the report.

The study said 51 percent of Blacks and 45 percent of Hispanics were from families with incomes under \$18,581. Twenty-five percent

### Related story on page 26

of the Blacks and 33 percent of the Hispanics had family incomes between \$18,582 and \$33,510, and 16 percent of the Blacks and 17 percent of the Hispanics had family incomes between \$33,511 and \$52,119, the report said.

Eight percent of the black youths and five percent of Hispanic youths were from families with incomes of \$52,120 and above.

By 1988, the college participation rate of middle-income Blacks had fallen to 36.2 percent from 52.7 percent in 1976, with black males lagging most severely.

Corresponding rates for Hispanics were 46.4 percent in 1988 compared with 53.4 percent in 1976.

### Degrees increase

The report showed that as a group, the number of degrees earned by minorities, including Blacks, Hispanics, Asian Americans and American Indians, increased from 1976 to 1987, with jumps of 30.9 percent in bachelor's degrees and 63.4 percent in first professional degrees.

But Blacks sustained the greatest losses among all racial and ethnic groups. From 1976 to 1987, the number of Blacks earning bachelor's degrees fell 4.3 percent, from 59,122 degrees to 56,544 degrees. For black males, the drop was 12.2 percent, from 25,634 to 22,498 bachelor's degrees.

Blacks earned 6.4 percent of the 918,388 bachelor's degrees awarded in 1976, but only 5.7 percent of the 991,388 bachelor's degrees in 1987. Hispanics earned two percent of the degrees in 1976 and 2.7 percent in 1987.

## Volleyball added

Men's volleyball has gained varsity status at Stevens Institute of Technology, and a 10-match schedule will begin February 6 when Stevens Tech hosts Eastern Montana.

Pat Dorywalski, the women's volleyball coach, will also head the men's program.

## Remember them when?

The National Football Foundation's Hall of Fame inductees for 1989 included 12 former college players and coaches, some of whom went on to professional careers. Holding photos from their playing and coaching days are, from left, front row, Sid Gillman, Miami University (Ohio); Frank Howard, Clemson University; Paul Cleary, University of Southern California; Bob Schloredt, University of Washington, and Donnie Anderson, Texas Tech University. On the back

row, from left, are Roman Gabriel, North Carolina State University; Edgar "Eggs" Manske, Northwestern University; Chalmers "Bump" Elliott, Purdue University and the University of Michigan; Archie Manning, University of Mississippi; Ted Kwalick, Pennsylvania State University; Bob Johnson, University of Tennessee, Knoxville, and Aurelius Thomas, Ohio State University.

## Bill would make NCAA due process mandatory

A bill that would permit Nebraska universities to sue the NCAA for a violation of due process in disciplinary proceedings appears to be headed for approval in the state's legislature.

The proposal, introduced during the legislature's 1989 session, would make the Association liable for actual damages suffered as a result of sanctions if a court holds that due process was violated.

Sponsored by Sen. Ernest Chambers of Omaha and Rep. Cap Dierks of Ewing, the bill cleared the last hurdle before final approval in the 49-member assembly when it

advanced from second-stage consideration by a 25-3 vote January 16.

The bill would require the NCAA to follow due process in its disciplinary proceedings, according to the Associated Press. It would allow institutions and individuals—including employees and students—to take legal action, and would subject sanctions imposed by the NCAA to review by the state's courts.

Last year, the bill received first-round approval but failed to advance further.

### Bill amended

Since then, the Nebraska attorney

general's office has issued an opinion stating that the bill is constitutional, except for a portion that would have permitted plaintiffs to sue for punitive as well as actual damages. Chambers amended the bill to specify that plaintiffs may sue only for actual damages.

Chambers told members of the legislature that the bill was introduced in response to a ruling by the U.S. Supreme Court that the NCAA is not subject to Federal due process requirements because it is a private organization. The decision was issued in a case involving the Association and University of Nevada, Las Vegas, basketball coach Jerry Tarkanian.

"That ruling leaves the only recourse against the NCAA that it be held accountable to the standards of due process in the state courts," Chambers told his colleagues.

### Counsel responds

But John J. Kitchin, the NCAA's legal counsel, disagreed that Nebraska universities or individuals

have "no other remedy" for a violation of due process.

"Of course, the NCAA membership believes in fair enforcement, and its enforcement structure and procedures do provide due process to institutions and individuals," he said.

Kitchin, who said he has not seen a copy of the bill and therefore based his response on news reports only, also expressed concern about a "lack of uniformity" that could result from the adoption of similar legislation by every state. He said such legislation would complicate the NCAA's ability "to adjudicate infractions cases involving its members, where the members may have different state-law standards," and would interfere with institutions' rights of membership in the Association.

The counsel also questioned the constitutionality, in terms of equal protection, of a bill that apparently singles out the NCAA and/or athletics organizations for liability.

## Top athlete

Vicki Huber of Villanova University holds the Honda-Broderick Cup signifying her selection as the top woman collegiate athlete of 1988-89. In addition to many honors for track, Huber also is the academic all-America of the year, as selected by the College Sports Information Directors of America.

## Woman's scholarship endowed

The Parker Overton family of Greenville, North Carolina, has given an endowment of \$50,000 to the East Carolina University athletics department.

The Kristi Overton Athletic Endowment is structured to provide a full scholarship each fall to a woman student-athlete from North Carolina who enters East Carolina.

Dave Hart, director of athletics, said, "It is extremely significant in that it represents our first endowment gift earmarked for our women's programs. It is very fitting that

Kristi Overton's name be affixed to this endowment scholarship due to the fact that she is a bona fide example of exemplary achievement by a woman athlete right here in our own community."

Overton has been named by the Women's Sports Foundation as one of the future top 10 women athletes. She was the 1989 professional water ski tour slalom champion and was the 1988 national college water ski champion.

She has been featured in Sports Illustrated, on ABC Wide World of Sports and in ESPN.

## Big Ten censures Purdue's Keady

The Big Ten Conference has censured Purdue University head men's basketball coach Gene Keady for remarks "unduly critical of conference basketball officials."

The censure involved Purdue's game against Indiana, which Purdue won 81-79 in overtime. Keady drew a technical foul in the first half after disagreeing with some calls, then blasted officials in a postgame news

conference.

The Big Ten said in a news release that conference regulations prohibit "undue public criticism of officials, and coach Keady's comments of January 13 were in violation of this standard."

The Big Ten said the censure carries no penalty and is purely "a public reprimand."

# Colleges must assure minorities of education, Cavazos says

Education Secretary Lauro Cavazos says colleges and universities must help ensure a quality education for any American, regardless of race or economic status.

"I would submit that there needs

to be a fundamental commitment to assure the following: By the year 2000, students from all population segments and economic groups who aspire to enter and complete programs of postsecondary education

have equal access to a quality education," Cavazos told about 1,200 higher education leaders at an American Council on Education luncheon in Washington, D.C., January 19.

The Bush administration and the nation's governors are preparing specific guidelines and timetables to improve learning, mainly in elementary and secondary schools, but Cavazos said higher education leaders need to clearly define their educational mission as well, the Associated Press reported.

"Universities and colleges must assume leadership in restructuring education in America today," Cavazos told the educators.

According to Cavazos, higher education leaders should set goals that include:

- Reducing by half the gap in degree completion rates at both the associate and baccalaureate level "between black and Hispanic students on the one hand and Anglo and Asian students on the other." Cavazos noted that 55 percent of black students and 51 percent of Hispanics who enter higher education "do not earn any credentials whatsoever even after 12 years" — compared with 33 percent for other students.
- Making sure that 50 percent of all bachelor's degree recipients are

able to demonstrate proficiency in a language other than English. Currently, only 10 percent of students are able to demonstrate such proficiency.

- Guaranteeing that all associate and bachelor's degree recipients should be able to demonstrate proficiency in college-level math and science.

- Increasing by 25 percent the number of U.S. college graduates completing doctoral programs in the basic arts, mathematics, sciences, engineering and technological disciplines, and by 50 percent the number of women, Blacks, Indians and Hispanics in the group.

- Making sure all graduating students are able to write coherent, grammatically correct papers; display a basic knowledge of world history, geography and culture appropriate to their degree level, as well as develop higher-order critical-thinking and problem-solving skills.

Cavazos stressed that a special effort must be made in minority teacher preparation.

Noting the severe shortage of minority teachers, he said 30 percent of the students in public elementary and secondary schools are either Hispanic or black and that only 11 percent of the teachers are Hispanic or black.

"You must involve yourself in helping America restructure elementary and secondary education," he said.

"I must remind you that the quality of the student that comes to your university or college is totally dependent upon what is occurring in the public elementary and secondary schools of America today."

## Applications ready

Applications for the 1990 USA National Team trials and U.S. Olympic Festival '90 regional trials for women's basketball are now available.

U.S. Olympic Festival trials are scheduled April 20-22 at four regional sites. USA National Team trials, selecting teams for the World Championship/Goodwill Games and several other international competitions, will be held May 31 to June 3 at the Olympic Training Center in Colorado Springs, Colorado.

Eligibility requirements for each team and training and competition schedules are included with the application.

For applications, contact: USA Basketball, 1750 East Boulder Street, Colorado Springs, Colorado 80909; telephone 719/632-7687.

## Bradley to revise legislation

In the wake of an NCAA decision to require reporting of student-athlete graduation rates, a New Jersey senator plans to alter his Student-Athlete Right-to-Know Act to exclude all NCAA member institutions, including those in Division III.

During a news conference following adoption at the NCAA Convention of Proposal No. 24, Sen. Bill Bradley said he would not withdraw his bill until the National Association of Intercollegiate Athletics and the nation's junior colleges also agree voluntarily to reveal graduation rates.

However, Greg McCarthy, a press aide in Bradley's office, said the senator does not plan to include NCAA Division III member institutions in his revised bill, even though Convention Proposal No. 25, to require Division III schools to report graduation rates, was withdrawn at the Convention.

Bradley sponsored the right-to-know legislation in the U.S. Senate to help student-athletes choose a college or university. A similar bill is sponsored in the House by Reps. Ed Towns, D-New York, and Tom McMillen, D-Maryland. McMillen said he would seek revisions in the House bill similar to Bradley's.

Bradley told national wire services that the NCAA Convention action on Proposal No. 24 "is fully consistent with legislation that we have sponsored." He said reporting also should be required for the "hundreds of colleges in other athletics conferences that are not covered by NCAA regulations."

Bradley told reporters, "A potential student-athlete and his or her parents are entitled to a direct and valid answer to the question, 'If I enter your college or university on an athletics scholarship in my sport, what are the chances that I will graduate within a year of those in my entering class?'"

# The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 55 cents per word for general classified advertising (agate type) and \$27 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call Susan Boyts at 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

## Positions Available

### Assistant A.D.

**Assistant Director of Men's Athletics for Promotions, Marketing and Corporate Sponsorship.** Required: College degree or equivalent work experience; and demonstrated work experience in promotions, marketing and sales. Responsibilities: Secure all advertising revenues for printed materials (programs, posters, etc.); plan, coordinate, and organize all marketing and promotions; solicitation and organization of corporate sponsorship program; all other duties as assigned by the Athletic Director. Contract: \$25,000 DOE; non-tenured contract; no faculty rank; first contract immediately upon hiring through 6-30-90, renewable annually on July 1. ## DIRECTOR OF ATHLETICS - IDAHO STATE UNIVERSITY -

**Idaho State University** invites applications and nominations for the position of Director of Athletics. The University is a member of the NCAA Division I (Div. I-AA in football) and the Big Sky Conference. The program serves approximately 250 athletes in six men's and six women's sports. This is an important position in the university and provides an exciting opportunity for an energetic and progressive administrator.

The campus is scenically located at the foot of the Caribou Mountains, convenient to Yellowstone and Grand Teton National Parks, and to ski resorts in Jackson, Wyoming, and Sun Valley, Idaho. The area is uniquely rich in cultural and recreational opportunities.

**POSITION DESCRIPTION:** The Director is the principal administrator of the Department of Athletics and reports to the President of the University. The Director must provide leadership for a strong athletics program that is consistent with the academic goals and mission of the institution. Primary responsibilities include: 1. Managing and directing all phases of the athletics program and office. 2. Effective communication with students, alumni, faculty, the media and the public. 3. Overseeing and working with the Executive Director of the Bengal Athletic Foundation in fund raising and promotional programs. 4. Assuring that programs comply with NCAA, Big Sky and University rules and regulations as well as Title IX and Affirmative Action guidelines. 5. Coordination and oversight of athletics facilities.

**QUALIFICATIONS:** The candidate must have a baccalaureate degree, but an advanced degree is preferred. It is important that the candidate have knowledge of the operation of a comprehensive intercollegiate athletics program. Preferably the candidate will have significant experience in athletics administration at the college or university level involving both men's and women's programs. The candidate must have outstanding leadership ability, effectiveness in sound fiscal and personnel management, demonstrated public relations and fund raising abilities and a demonstrated commitment to the educational objectives of a high quality regional public university.

**DATE OF APPOINTMENT:** Negotiable. Salary and fringe benefits are competitive.

**APPLICATIONS:** Send letter of application, which specifically addresses each qualification for the position; a resume; and the names, addresses and phone numbers of three to five individuals from whom letters of reference have been requested, to:

Dr. Richard L. Sagness, Chair  
Director of Athletics Search Committee  
Administration Bldg., Box 8310  
Idaho State University  
Pocatello, ID 83209

**CLOSING DATE:** February 22, 1990.

Idaho State University is an Equal Opportunity Employer. Women and Members of Minority Groups are encouraged to apply.

### Physical Education

Two tenure track positions in Physical Education beginning September 1, 1990.

**1. Assistant Professor - Area of specialization:** Teaching courses in sport studies and classes in Physical Education Activity Program. Additional responsibility for coaching the men's baseball team. Doctorate in Physical Education and college teaching experience required. The successful candidate must show a strong commitment to teaching, service, and research. Previous baseball playing and coaching experience at the college level preferred.

**2. Associate or Assistant Professor - Area of specialization:** Teaching courses in exercise science and fitness courses in the activity program, as well as involvement in faculty health fitness program. Additional responsibility as Director of Human Performance Laboratory and Coordinator of Physical Education Program. Doctorate in exercise science and college teaching experience required. The successful candidate must show a strong commitment to teaching and service, and demonstrate excellence in research and scholarly activity.

**Salary commensurate with qualifications and experience.** The selection process will begin February 1, 1990 and will continue until the position is filled. Send curriculum vita, letter of application, transcript and three current letters of recommendation to:

Dr. Tim Brown  
Chair/Athletic Director  
Department of Physical Education and Dance  
Skidmore College  
Saratoga Springs, NY 12866  
An affirmative action/ equal opportunity employer, M/F

is an Equal Opportunity/Affirmative Action Employer

## Director of Athletics UNIVERSITY OF CALIFORNIA, IRVINE

The Director of Athletics is the chief administrative officer for the planning, coordination and implementation of a broadly based program of intercollegiate athletics and recreation. This includes responsibility for program quality and integrity, resource acquisition and allocation, facility development and management, fund-raising, publicity, marketing, athletics eligibility and liaison with campus and external organizations. A major responsibility of the Director is to provide leadership for the further development of the programs consistent with the objectives and resources of the campus and the campus-philosophy of athletics. Intercollegiate Athletics competes at the NCAA Division I level. The Director reports to the Vice Chancellor-Student Affairs.

### Qualifications

High-level experience in the management of NCAA Division I intercollegiate athletics programs for men and women, including skills in sports administration, marketing, communications, personnel supervision and facilities management, successful experience in the management of a complex, multi-source budget, successful experience in major fund-raising efforts, commitment to a student-athlete philosophy of athletics within a multi-cultural educational environment.

### Appointment

Position available immediately; likely to be filled in Spring 1990.

### Salary

Commensurate with professional experience and qualifications.

### Application Deadline

Applications and nominations must be postmarked by February 28, 1990 to insure full consideration. Applications must include a resume, the names of three references, and a one-page summary describing your experience in terms of the duties as described above. Materials should be addressed to:

Dr. Henry Pontell, Chair  
Athletic Director Search Committee  
c/o Office of the Vice Chancellor-Student Affairs  
Room 260 Administration Building  
University of California, Irvine  
Irvine, California 92717

UCI is an Affirmative Action/Equal Opportunity Employer. Members of minority groups and women are encouraged to apply.

# OK, maybe he can't sing, but he's still a good skate

No one was questioning referee **John Gallagher's** officiating skills following an ice hockey game January 14 between Potsdam State University College and Norwich University, which went into overtime before ending in a 1-1 tie.

However, there was some disagreement over his singing ability.

When a tape player failed prior to the game, the Medford, Massachusetts, resident skated over to the penalty box, picked up a microphone and skated back to center ice. There, he led the 200 fans in the arena in the singing of "The Star-Spangled Banner."

Gallagher's effort, although gallant, was somewhat marred by his

being for a 368-106-3 mark since 1930, and women's squads have combined for a record of 132-11 since 1973.

University of New Hampshire officials have announced plans to honor the school's 1964-65 ice hockey team, which played the first game ever in Snively Arena. That team defeated Norwich University, 4-2, February 13, 1964, in the on-campus facility's first contest.

To help celebrate the arena's 25th "birthday," returning members of that team will be introduced to fans during an intermission of the 1989-90 New Hampshire squad's February 14 game against Merrimack College. They also will be the featured guests at a pregame buffet and a postgame reception.

University of South Carolina women's basketball coach **Nancy Wilson** earned career victory No. 300 January 8 when her Lady

**Nancy Wilson**

Gamecocks defeated Clemson University, 75-52.

Wilson posted 193 victories (against only 64 defeats) in eight seasons at the College of Charleston. Through the Clemson game, she was 107-54 at South Carolina (where she is in her sixth season).

Fifteen of the University of Northern Colorado's 19 women's soccer

players earned grade-point averages of at least 3.000 (4.000 scale) last fall — while their sport was in season. They were led by **Deanna Castorena**, who had a 4.000. For the record, 12 of those 19 players on the 1989-90 roster have cumulative GPAs of at least 3.000.

Ten North Carolina State University baseball players earned GPAs of at least 3.000 last semester, and five of them were named to the dean's list. Sophomore **Stacy Betts** led the way with a 4.000.

During the fall quarter at the University of Georgia, 56 male student-athletes had GPAs of at least 3.000. Fifteen were named to the dean's list, and nine earned 4.000s — including basketball player **Alec Kessler** and football players **Steve Harmon** and **Marc Hyer**.

From the Southeastern Conference comes the following news items:

• University of Alabama, Tuscaloosa, President **Roger Sayers** has

been selected by the SEC executive committee to serve on the College Football Association board of directors.

• **William E. "Bud" Davis**, Louisiana State University chancellor, has been named to the SEC executive committee, replacing former University of Kentucky President **David Roselle**, the new president at the University of Delaware.

U.S. Volleyball Association officials have announced that the organization will accept through June 1 applications for coaching positions with U.S. teams that will compete in the 1991 World University Games, the 1991 U.S. Olympic Festival and the 1991 Elite Junior National Training Camp.

Applications and additional information are available from **Doug Beal**, USVBA Training Center, P.O. Box 20336, San Diego, California 92120 (telephone 619/692-4162).

## Briefly in the News

struggle to get the words right and to find the correct key.

Unfortunately, Gallagher was singing to a tough house. Many of those fans sitting in the bleachers were military officers from Norwich. Several of the uniformed officers were visibly irritated as they held their salutes for the singing of the anthem.

The American Football Coaches Association took time out during its recent convention in San Francisco to honor one of Hollywood's most popular film stars.

Actor **Burt Reynolds**, who played fullback during his college days at Florida State University before going on to play the roles of several football players on movie screens, received the coaches' DeOrmond "Tuss" McLaughry Award for distinguished service to mankind.

Reynolds, whose best-known football-themed films are "Semi-Tough" and "The Longest Yard," is well-known these days for creating opportunities for aspiring actors.

He established an institute for theatrical training and the Burt Reynolds Dinner Theater in Jupiter, Florida, and provided a \$600,000 endowment for the Burt Reynolds Eminent Scholar Chair in professional and regional theater at Florida State. He also recently donated \$1 million for the new Asolo Center for the Performing Arts in Sarasota, Florida.

But Reynolds hasn't lost any of his interest in football; he regularly attends games at the school, which named its athletics residence hall for him.

The AFCA also honored 83-year-old **Len Casanova**, athletics director emeritus at the University of Oregon and a former football coach at the school, with its Amos Alonzo Stagg Award for outstanding contributions to football. Casanova served as AFCA president in 1964.

New AFCA honorary members **Joe Restic** of Harvard University, **Jimmie McDowell** of the National Football Foundation and **Volney Meece** of the Football Writers Association of America also were acknowledged at the convention.

University of Florida swimmers rewarded the school's 60-year sponsorship of a varsity program in the sport January 13 by picking up dual-meet victories Nos. 499 and 500. The women's team defeated its counterpart from the University of Miami (Florida), 62-49, for No. 499. The men followed by defeated Miami's men, 65-39, for No. 500.

Florida's combined dual-meet record, with those victories, stands at 500-117-3. Men's teams have com-

# No coach has driven more teams to victory.
